Product Description

12 Needles Electric Microneedle Machine With 6 Gear Adjustable

Product Description:

With a frequency of 50-60Hz, this electric microneedle machine can help stimulate collagen production, reduce the appearance of fine lines and wrinkles, and improve skin elasticity. The needle number is 12, and the output voltage is 5V, making it an ideal choice for those looking for a reliable and effective microneedling device.
The Electric Micro Needle Device comes in a sleek white color, adding a touch of elegance and style to your beauty routine. Its compact design makes it easy to use at home, or even while on the go. The model number is M5, which ensures it is a high-quality machine that can deliver consistent results.
Using the Electric Micro Needle Device is simple and easy. Begin by cleaning your skin and the device, then adjust the needle length to your desired setting. Next, turn on the machine and gently glide it over your skin in a circular motion. The needles will penetrate the skin and stimulate collagen production, leaving you with a smoother, more youthful appearance.
The Electric Micro Needle Device is perfect for those looking to improve the appearance of their skin without resorting to invasive procedures. Its advanced technology and reliable performance make it an excellent choice for anyone who wants to achieve a healthier, more youthful-looking complexion.
