## Product Description

### Advanced RF Technology Electric Microneedle Machine For Skin Rejuvenation

#### RF Beauty Equipment Introduction

The Astiland RF-1 Microneedle Fractional Radio Frequency System is an ideal skin lifting, tightening, and rejuvenating aesthetic device that uses minimally invasive microneedles to deliver controlled radiofrequency energy directly to all depths of the skin. The heat generated by the radiofrequency acts on the skin, causing it to contract and stimulating collagen regeneration. This is known as collagen self-production. During the treatment, you can see an immediate tightening and plump of the skin. Radiofrequency treatment can visibly eliminate wrinkles, and fine lines and lift sagging contours.

## 4-pole release micro current

Using 4-pole micro current to release molecules that penetrate the bottom layer.

## 6-speed deep penetration

1-6 speed intelligent speed regulation solves various skin problems.

## LED display screen intelligent pause

LED digital display can be used for charging and plugging, making operation more convenient.

## Adjustable needle length 0~1.0 mm

Deep adjustment, The functions of regulation, repair, and hydration are fully equipped.

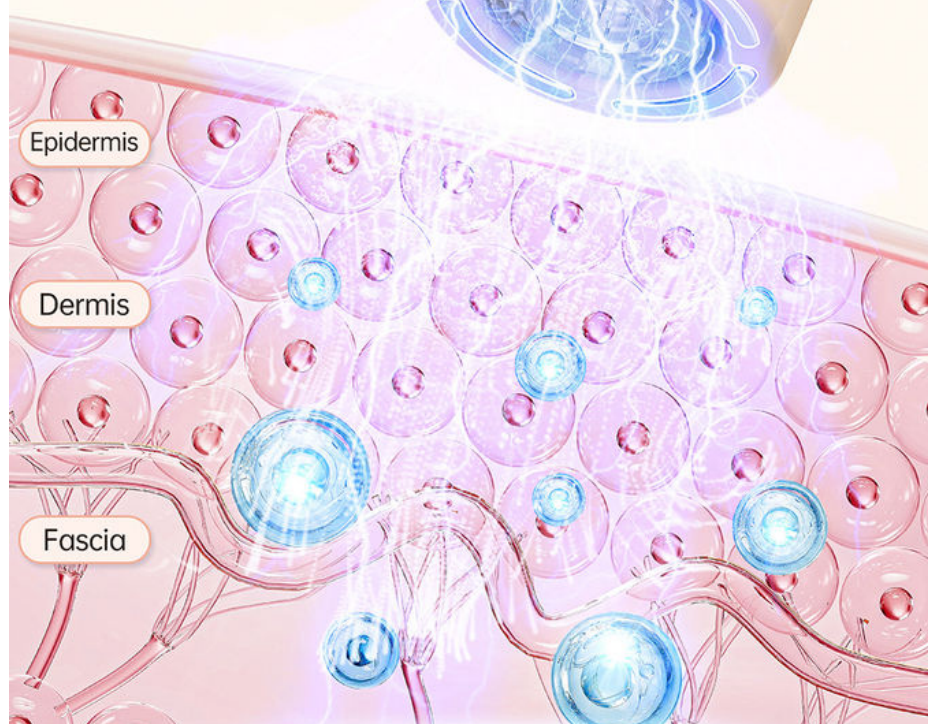

## EMS annular micro current+carrier essence

Continuous output of circular multi-polar current, reaching deep into the skin, resulting in dual efficacy of EMS+essence

### EMS Level 4 Microcurrent

Stimulate cells and accelerate collagen synthesis.

### 4-pole micro current enhances firm skin texture

EMS circular quadrupole energy field. With the aqueous conductivity of essence, micro current and essence can penetrate into the deep skin and achieve great treatment effect.

# Triple effect to restore skin vitality

EMS Microcurrent+Carrier Liquid Apply to Facial Skin

## EMS microcurrent

promotes skin collagen synthesis

## Carrier essence

360° coverage penetration

## Intelligent repair

Activate skin repair mechanism

## Intuitive low battery warning

-  The number of speed flashes slowly when the battery capacity has 10% left.
-  The pen will turn off automatically after the number of speed flashes quickly for 1 minutes.
-  The pen shows "L" when restarting after the low battery automatic shutdown.
