1.0-10.0mm Spacing HIFU Beauty Machine For Simultaneous/Independent Control

Product Description:

The HIFU Beauty Machine is suitable for all skin types, making it a versatile option for people who want to improve the appearance of their skin. It has an energy output range of 0.1J-2.5J (0.1J/step), which can be adjusted according to the individual's needs and preferences.

The HIFU Beauty Machine comes in a compact size, with dimensions of 64 X 81 X 131 Cm. This makes it easy to store and transport, making it a convenient option for those who want to use it at home. The product is also designed with safety in mind, with features that ensure that the machine is easy to use and does not cause any harm to the skin.

Overall, the HIFU Beauty Machine is an effective and convenient option for people who want to improve the appearance of their skin in the comfort of their own home. With its customizable length and spacing settings, it can be tailored to suit the needs of different individuals. Whether you are looking to reduce the appearance of fine lines and wrinkles, or tighten sagging skin, this Hifu Facial Machine can help you achieve the results you desire.

Features:

Product Name: HIFU Beauty Machine

Input Voltage: AC100V-240V

Supplier Info: Manufacturer

Energy Output: 0.1J-2.5J (0.1J/step)

Size: Portable

Scope: 5.0mm-25mm

This HIFU Beauty Machine is a focused ultrasound beauty device that provides an effective non-surgical facelift and skin tightening treatment. With energy output ranging from 0.1J-2.5J, this Hydrafacial beauty machine is suitable for a wide range of skin types and concerns. Its portable size makes it easy to use and transport, and its scope of 5.0mm-25mm allows for targeted treatment of specific areas.

Technical Parameters:

Lamp Longevity	300,000 Shots (IPL)
Energy Output	0.1J-2.5J (0.1J/step)
Supplier Info	Manufacturer
Scope	5.0mm-25mm
Suitable Skin Types	All
Body Type	Vertical
Material	ABS
Energy Type	HIFU (High Intensity Focused Ultrasound)
Working Mode	Simultaneous / Independent Control

This is the technical parameter table for the HIFU Anti-wrinkle Device, also known as the Ultrasound Anti-aging Device or HIFU Skin Regeneration Device.

Applications:

This beauty machine is designed to be used in various occasions and scenarios. It can be used in beauty salons, spas, clinics, and even at home. The HIFU technology used in this device emits high frequency sound waves that penetrate deep into the skin, stimulating the production of collagen and elastin, resulting in a younger and fresher complexion. This technology is considered safe and non-invasive, making it an excellent alternative to surgical procedures.

The LZR 3D HIFU Machine has a scope of 5.0mm-25mm and can work in either simultaneous or independent control mode. The input voltage is AC100V-240V, making it compatible with different electrical systems. The pack size for this product is 60*44*46cm and regular packaging is provided for safe transportation. The delivery time for this product is 5-8 working days and payment terms include L/C and T/T. The supply ability of this product is 10000 pieces/month, ensuring availability for customers.

The HIFU Anti-wrinkle Device is suitable for people who want to reduce fine lines, wrinkles, and sagging skin. It can also help with skin tightening and lifting, resulting in a youthful appearance. The device can be used on various parts of the body such as the face, neck, arms, and abdomen. The results are visible immediately after the first use and can last for several months. With regular use, the effects of the HIFU technology can be long-lasting.
