Product Description

15 Inch Touch Screen Hair Removal Laser Machine With 1200W Power And Dual Fans

Product Description:

With a power of 600W, this unwanted hair remover device delivers intense laser pulses to target the hair follicles, disabling their growth over time. The machine features a spot size of 12mm*12mm, which allows you to cover more area in less time.

The laser type used in this hair removal laser machine is the latest technology, which ensures that the treatment is gentle on the skin while still being effective in removing the hair. The energy density can go up to 120 J/cm², which means that you can adjust the power according to your skin type and hair thickness.

This smooth skin laser machine is perfect for those who are looking for an easy and painless way of getting rid of unwanted hair. It is ideal for use on all parts of the body, including the face, arms, legs, and bikini area.

The Hair Removal Laser Machine is also lightweight, weighing only 15 kg. This makes it easy to move around and store after use.

In conclusion, if you are looking for a reliable and efficient solution to remove unwanted hair, this Laser Hair Elimination Machine is the perfect choice. With its powerful features and easy-to-use design, you can achieve smooth and hair-free skin in no time!
