

OEM ODM Cryolipolysis Slimming Machine / Cryo Slimming Device CE ISO13485 Certification

Our Product Introduction

For more products please visit us on hifubeauty-machine.com

Basic Information

- Place of Origin: China Guangzhou
- Brand Name: Rapid freezing molding machine
- Certification: CE
- Model Number: LD-1
- Minimum Order Quantity: 1
- Price: confer
- Packaging Details: Standard export packing
- Delivery Time: 5-8days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 Piece/Pieces per Month

Product Specification

- Name: Cryolipolysis Slimming Machine
- Work Model: Pulse
- Freezing Temperature: -15-5°C
- Type: Slimming Machine
- Temperature: -15~5 °C
- Laser Wavelength: Laser Diode AlGaInp 635-650nm
- Certifications: CE, ISO13485
- Frozen Head Pressure: 0-100kpa
- Service: OEM ODM
- Highlight: OEM Cryolipolysis Slimming Machine,
ODM Cryolipolysis Slimming Machine,
Cryo Slimming Device CE

Product Description

-15-5u2103 Pulse Cryolipolysis Slimming Machine with CE / ISO13485 Certification

Product Description:

The Cryolipolysis Slimming Machine is designed to help users achieve their desired body shape by reducing stubborn fat in targeted areas. It uses a combination of Cryolipolysis and Laser Diode AlGaInp 635-650nm technology to achieve this goal. It is a non-invasive procedure that does not require any surgery, needles, or anesthesia.

The Cryolipolysis Slimming Machine uses a Pulse Work Model that allows for precise targeting of fat cells. The machine works by cooling the targeted area to a temperature that causes the fat cells to freeze and die. The dead cells are then naturally eliminated from the body through the lymphatic system. This process is known as Cryolipolysis.

What sets the Cryolipolysis Slimming Machine apart is its use of Laser Diode AlGaInp 635-650nm technology. This technology is used to stimulate the lymphatic system and promote the elimination of fat cells. The Laser Diode AlGaInp 635-650nm wavelength is effective in penetrating the skin and reaching the fat cells in the targeted area.

The Cryolipolysis Slimming Machine is effective in reducing fat in various Treatment Areas such as the Abdomen, Thighs, Arms, Love Handles, and Back. It is safe to use and does not cause any damage to the surrounding tissues. The machine is also easy to use and can be operated by anyone with minimal training.

The Cryolipolysis Slimming Machine is a great addition to any beauty and wellness clinic. It can be used in conjunction with other body contouring treatments such as Cavitation Body Slimming Machine, to provide clients with a comprehensive weight loss solution. The machine is also a great option for those who want to achieve their desired body shape without resorting to surgery or other invasive procedures.

Features:

Product Name: Cryolipolysis Slimming Machine

Certifications: CE, ISO13485

Treatment Areas: Abdomen, Thighs, Arms, Love Handles, Back

Stationary: Yes

Work Model: Pulse

Service: OEM ODM

Technical Parameters:

Frozen Head Pressure	0-100kpa
Work Model	Pulse
Certifications	CE,
Type	Slimming Machine
Handle Screen	3.5inch
Freezing Temperature	-15-5°C
Vacuum Pressure	10-80KPa
Laser Wavelength	Laser Diode AlGaInp 635-650nm
Lipolaser	Diodes Liposlim For Fat Removal
Treatment Areas	Abdomen, Thighs, Arms, Love Handles, Back

Applications:

The machine is made in China Guangzhou and has been designed to target problem areas such as the abdomen, thighs, arms, love handles, and back. The Frozen Head Pressure can be set between 0-100kpa, and the Handle Screen is 3.5 inches, making it easy to use and adjust according to individual needs.

The vacuum pressure of the Rapid Freezing Molding Machine LD-1 ranges from 10-80KPa, and it has been certified by CE and ISO13485, ensuring that it meets the highest safety and quality standards.

There are various occasions and scenarios in which the Cryolipolysis Slimming Machine can be used. For instance, it can be used by people who are looking to lose weight or shape their bodies. Additionally, it can be used by professionals in beauty salons, spa centers, and clinics who are looking to offer their clients an effective and safe slimming treatment.

The Cryogenic Equipment is also ideal for people who are unable to exercise or diet due to certain medical conditions. It is a non-invasive treatment that works by freezing and eliminating fat cells, making it a safe and effective option for those who are looking to lose weight without undergoing surgery.

In conclusion, the Rapid Freezing Molding Machine LD-1 is a highly effective Slimming Machine that is suitable for use in various settings. Its ability to target problem areas and its adjustable settings make it a versatile and practical option for anyone looking to lose weight and shape their body.

Customization:

Brand Name: Rapid freezing molding machine
Model Number: LD-1
Place of Origin: China Guangzhou
Service: OEM ODM
Treatment Areas: Abdomen, Thighs, Arms, Love Handles, Back
Handle Screen: 3.5inch
Functions: Weight Loss
Stationary: Yes

Support and Services:

The Cryolipolysis Slimming Machine is a high-tech device that uses controlled cooling to target and eliminate fat cells without damaging surrounding tissues. It is designed to treat stubborn pockets of fat in areas such as the abdomen, thighs, and flanks.

Our product technical support and services include:

Expert installation and setup

Comprehensive training for operators

Ongoing technical support and maintenance

Replacement parts and accessories

Product upgrades and software updates

Warranty and repair services

Consultation and guidance for optimizing treatment protocols

Our team of experienced technicians and support staff are dedicated to ensuring the optimal performance and longevity of your Cryolipolysis Slimming Machine. Contact us for more information or assistance.
