## Product Description

### Energy Adjustable Diode Laser Beauty Machine Ipl Laser Beauty Machine With Pulse 0.02-0.99s

#### Product Description:

Featuring a large 15.6-inch screen, this machine is easy to operate and provides clear and detailed visuals for your clients. Its user-friendly interface allows for quick and easy adjustments to the laser settings, ensuring that you can provide the best possible treatment for each individual client.

The LB-100 features a unique combination of laser bars, including 3\*755nm, 4\*808nm, and 3\*1064nm lasers. This combination of wavelengths allows for effective hair removal on a wide range of skin types and hair colors, making it a versatile addition to any commercial salon or spa.

While the LB-100 is designed for commercial use, its compact and portable design makes it easy to transport and store. This means that you can take your beauty services on the go, providing high-quality treatments to your clients wherever you go.

Overall, the Laser Beauty Machine - Model LB-100 is an excellent choice for any commercial salon or spa that wants to provide effective and efficient laser hair removal services. Its combination of power, versatility, and portability make it a great investment for any business owner looking to expand their services and offer the best possible experience to their clients.

If you are in the market for a home laser hair removal machine, we recommend checking out our other products, specifically designed for at-home use. Our home laser hair removal machines offer the same advanced technology and effective hair removal capabilities as our commercial machines, but with a smaller and more affordable design that is perfect for personal use.

#### Features:

Product Name: Laser Beauty Machine

Treatment Probes: 5 Pieces

Application: For Commercial

Screen: 8-inch Touchscreen

Energy Density: 1-10J/cm<sup>2</sup>

Pulse Width: 0.02~0.99s

#### Technical Parameters:

Treatment Heads	5 Pieces
Frequency	1-6Hz
Screen Size	15.6 Inches
Treatment Probes	5 Pieces
Application	For Commercial
Pulse Width	0.02~0.99s
Usage	Beauty Salon, Spa, Home
Style	Portable
Laser Bar Number	3*755nm; 4*808nm; 3*1064nm
Wavelength Range	430/480/530/560/640/690 ~ 1200nm

#### Applications:

The LB-100 has three types of laser bar numbers: 3\*755nm, 4\*808nm, and 3\*1064nm. The different laser bar numbers help in treating different skin types. For instance, 755nm is suitable for treating lighter skin types, while 1064nm is recommended for darker skin types. The 808nm laser is effective for all skin types.

The LB-100 laser beauty machine is very versatile. One of its applications is hair removal. With its advanced technology, the LB-100 can remove hair from different parts of the body, including the legs, arms, underarms, bikini area, and face. This product is a great alternative to traditional hair removal methods such as waxing and shaving.

Another application of the LB-100 is skin rejuvenation. The laser can stimulate collagen production, which helps in reducing wrinkles and fine lines. Additionally, the LB-100 can improve skin texture and tone, leaving the skin looking younger and more radiant.

The LB-100 is also suitable for tattoo removal. The 1064nm laser can effectively remove black and dark-colored tattoos. The laser breaks down the ink particles, which are then eliminated by the body's immune system.

Finally, the LB-100 laser beauty machine can treat skin conditions such as acne and acne scars. The laser can reduce inflammation and kill the bacteria that cause acne. Additionally, the LB-100 can improve the appearance of acne scars by stimulating collagen production.

In conclusion, the LB-100 laser beauty machine is a versatile and portable product that is suitable for commercial use. Its different laser bar numbers and treatment heads make it effective in treating different skin types and conditions. Whether you need a Co2 laser beauty machine, hair removal laser machine, or IPL laser beauty machine, the LB-100 is a great choice.
