Product Description

IPL / Laser E Light RF Beauty Machine With 5 Wavelength Interference Filter Tips

Product Description:

The device is an IC equipment that combines the benefits of different technologies to offer a comprehensive beauty treatment. It combines the benefits of Elight, RF, and Laser technologies to address various skin concerns. The Elight technology uses intense pulsed light (IPL) and radiofrequency (RF) energy to penetrate the skin and stimulate collagen production. This helps to tighten the skin, reduce wrinkles, and improve skin texture.

The RF technology uses radiofrequency energy to heat up the skin and stimulate collagen production. This helps to tighten the skin, reduce wrinkles, and improve skin texture. The Laser technology uses a focused beam of light to target specific areas of the skin and remove unwanted hair, tattoos, and pigmentation.

The RF Beauty Equipment is suitable for use in beauty clinics, centers, salons, and even at home. It is a facial beauty device that can address a range of skin concerns, from acne to wrinkles. It is also an IPL beauty equipment that can remove unwanted hair and pigmentation. The device is easy to use and comes with a user manual that provides detailed instructions on how to operate it.

The RF Beauty Equipment is an Elight RF Laser Machine that offers a comprehensive beauty treatment. It is a versatile device that can address various skin concerns, from acne to wrinkles. It is also an IPL beauty equipment that can remove unwanted hair and pigmentation. The device is suitable for use in beauty clinics, centers, salons, and even at home. It is a facial beauty device that can improve skin texture, tone, and firmness.

Voltage: 110V/220V10% 60HZ 10A

Target Area: Body/Face/Legs/Arms

Action: IC Equipment

Rf Polar: Monopolar

Rf Power: 50W

Face Beauty Equipment

CET RET RF Machine

Beauty Care Instruments

Technical Parameters:

Rf Applicator:	Bipolar
Shockwave Frequency:	1-18Hz
Treatment Tips:	5pcs(F-S/F-M/F-L/I-M/I-L)
Voltage:	110V/220V10% 60HZ 10A
Delay Interval:	0-3s
Rf Polar:	Monopolar
Colors:	White
Language:	Multi-language
Suitable For:	Beauty Clinic/centre/salon/home Use
Target Area:	Body/Face/Legs/Arms

This E Light Beauty Machine is a cosmetology equipment suitable for facial and body beauty treatments.

Applications:

Equipped with a big color touch screen, this RF Beauty Equipment is user-friendly and easy to operate. The IC Equipment action ensures that the device operates smoothly and efficiently, while the monopolar RF polar provides a deep and effective treatment for a range of beauty concerns.

Whether you're targeting the body, face, legs, or arms, this RF Beauty Equipment is the perfect solution for your clients. With a delay interval of 0-3s, you can customize the treatment to meet the specific needs of each individual.

Not only is our RF Beauty Equipment ideal for use in a professional beauty setting, but it's also a great option for at-home use. This IPL Beauty Equipment is perfect for those looking for a Home Beauty Machine that delivers salon-quality results.

And if you're looking for even more advanced beauty treatments, our HIFU RF Machine is the perfect addition to your beauty arsenal. With a range of features and settings, this device can help you achieve the perfect look for your clients.

So whether you're a professional beautician or simply looking to up your beauty game at home, our RF Beauty Equipment is the perfect

choice. Contact us today to learn more about our products and how we can help you achieve your beauty goals.

Customization:

Our RF Beauty Equipment is a high-quality industrial microwave equipment that is designed to deliver efficient and reliable results. Made in China Guangzhou, this IC equipment is suitable for use in beauty clinics, centres, salons, and even at home. With a powerful RF power of 50W and a frequency of 4MHZ, this IPL RF Beauty Equipment is perfect for a range of beauty treatments. Whether you're looking for a laser E-light IPL machine or an Elight RF laser machine, our product customization services can help you get exactly what you need. We can customize the equipment to suit your specific requirements, ensuring that you get the best possible results from your treatments.

Operation handle description

Multiple function handle head, the whole body can be used, suitable for a variety of scenes, beauty industry to broaden the necessary instruments!

Multifunctional integrated head

The probe is a comprehensive operation head, a collection of 40K burst fat, BI0 micro current, vacuum negative pressure, laser, RF RF, automatically scan metabolic aging cells, activate new cell division, to achieve the effect of beauty and skin rejuvenation.

Large roller head

The use of negative pressure suction and unique roller design, the skin and the lower skin muscle tissue up, and then through the role of the roller before and after the vacuum suction, the skin and fat tissue suction, knead, roller mechanical aerobic exercise, so that the body more effectively consume the accumulation of fat, to achieve the effect of slimming body.

Medium size roller head

Using negative pressure suction and unique roller design, the body is deeply massaged in waves to promote the metabolism of the skin, so that the skin can produce more collagen and elastic fiber cells, thereby increasing the elasticity of the skin.

Negative pressure head for face

The use of negative pressure on the face sagging and collagen loss and other problems, all concentrated in a small part through the radio frequency and infrared light to tighten and lift the skin, promote the blood circulation of the face, help the face to enhance and tighten, fade fine lines, show the aesthetic outline.

Radiofrequency eye negative pressure pen

Use negative pressure and RF to help blood circulation in the eyes, eliminate eye bags, improve dry fine lines and dark circles, solve the accumulation of excess fat in the eyes, and promote the absorption of nutrients.

FAQ:

A: RF Beauty Equipment is a device that uses radiofrequency technology for skin tightening, wrinkle reduction, and body contouring. It is manufactured in Guangzhou, China.

2. Q: How does the RF Beauty Equipment work?

A: The device generates radiofrequency energy that penetrates into the deeper layers of the skin, heating the tissue and stimulating collagen production. This results in firmer, smoother, and more youthful-looking skin.

3. Q: Is RF Beauty Equipment safe?

A: Yes, RF Beauty Equipment is safe when used according to the manufacturer's instructions. It is a non-invasive and non-surgical treatment that does not require any downtime.

4. Q: What areas of the body can be treated with RF Beauty Equipment?

A: RF Beauty Equipment can be used on various areas of the body, including the face, neck, arms, abdomen, thighs, and buttocks.

5. Q: How often should I use RF Beauty Equipment?

A: The frequency and duration of treatment depend on the individual's skin condition and desired results. Generally, weekly or bi-weekly sessions are recommended for optimal outcomes.
