Product Description

Electric Microneedle Machine M5 With Stainless Steel Needles For Home Skincare

Product Description:

The Electric Skin Needling Machine is a high-quality device that is crafted to provide you with the best results possible. It boasts an output voltage of 5V, which ensures that it delivers a consistent and reliable performance every time. Additionally, it has a weight of 1.5kg, which makes it easy to handle and maneuver during use.

The size of the Electric Microneedle Machine is 16.5cm X 4.5cm X 4.5cm, making it compact and portable enough to carry around with you wherever you go. Whether you're traveling or simply on-the-go, you can take this device with you and perform skin needling at any time you need to.

The Electric Skin Needling Machine operates at a frequency of 50-60Hz, which means that it can penetrate the skin quickly and effectively. It also has a needle length of 0.25mm-2.5mm, giving you the flexibility to adjust the depth of the needles according to your specific needs and preferences.

With the Electric Microneedle Machine, you can achieve a smoother, brighter, and younger-looking skin in no time. Whether you want to reduce the appearance of fine lines and wrinkles, scars, or hyperpigmentation, this device can help you achieve your skincare goals quickly and efficiently.

In conclusion, the Electric Microneedle Machine is an excellent investment for anyone who wants to achieve a more youthful-looking skin. It is a powerful tool that delivers a consistent and reliable performance, making it a must-have for anyone who wants to improve their skin's appearance and health. Get yours today and experience the difference!

Features:

Product Name: Electric Microneedle Machine

Output Voltage: 5V

Size: 16.5cm X 4.5cm X 4.5cm

Input Voltage: 110-240V

Frequency: 50-60Hz

Speed Levels: 5 Levels

The Electric Microneedle Machine is an Automated Microneedle System that is also referred to as a Dermal Pen System. It is an Electric Skin Needling Machine that is designed to provide a safe and effective way to improve the appearance of skin.

Applications:

The Electric Micro Needle Device is designed for use by beauty professionals and individuals who want to improve their skin's appearance. The machine is ideal for use in salons, spas, and clinics. The device can be used for a variety of skin concerns such as acne scars, fine lines, wrinkles, and hyperpigmentation.

The Electric Micro Needle Device is easy to use and can be used on all skin types. The device is equipped with micro needles that penetrate the skin, creating micro-channels that stimulate collagen production. The micro-channels also allow for better absorption of skincare products. This means that after using the device, the skin will be more receptive to serums, creams, and other skincare products.

The Electric Micro Needle Device is perfect for use on the face, neck, and hands. It can be used to treat a variety of skin concerns, including acne scars, fine lines, wrinkles, and hyperpigmentation. The device is also effective in reducing pore size and improving skin texture.

The Electric Micro Needle Device is a versatile tool that can be used for a variety of skin concerns. It is ideal for use in salons, spas, and clinics. The device is also perfect for use at home by individuals who want to improve their skin's appearance. The Electric Micro Needle Device is a must-have tool for anyone who wants to achieve a flawless complexion.
