Product Description

5 Levels Smart Skin Rejuvenation De Martha Nine Needles / Electric Skin Needling Machine M5

Product Description:

Measuring 16.5cm X 4.5cm X 4.5cm and weighing only 1.5kg, this micro needle pen device is compact and lightweight, making it easy to use at home or on-the-go. With its 5 speed levels, you can customize your treatment according to your skin's needs and preferences, from gentle and soothing to intense and invigorating.

Using the Electric Micro Needle Pen Device is simple and safe. First, apply a numbing cream to your skin. Then, select the appropriate needle depth and speed level. Finally, glide the device across your skin in a circular motion, using gentle pressure. The device will create tiny puncture wounds in your skin, triggering the natural healing process and promoting collagen production.

The benefits of using the Electric Micro Needle Pen Device are numerous. It can reduce wrinkles, fine lines, and acne scars, improve skin texture and tone, and tighten sagging skin. It can also enhance the absorption of your skincare products, allowing them to penetrate deeper into the skin and work more effectively.

In summary, the Electric Micro Needle Pen Device is a powerful and effective tool for achieving youthful and radiant skin. With its 12 needles, 5 speed levels, and medical-grade stainless steel material, it offers a safe and convenient way to perform micro-needling therapy at home. Try it today and experience the transformative power of automated needle therapy!

Features:

Product Name: Electric Microneedle Machine

Output Voltage: 5V

Weight: 1.5kg

Needle Material: Medical Grade Stainless Steel

Needle Length: 0.25mm-2.5mm

Color: White

Micro Needle Pen Device

De Martha nine needles

Automated Needle Therapy System

Applications:

With needle lengths ranging from 0.25mm to 2.5mm, this electric micro needle device is perfect for a variety of skin concerns, including fine lines, wrinkles, scarring, and uneven texture. The Crystal Cannula 32g needles penetrate the skin at a controlled depth, stimulating collagen production and improving overall skin health.

The Electric Microneedle Machine is ideal for professional use in medical spas, dermatology clinics, and cosmetic surgery practices. It can be used on all skin types and is particularly effective for clients with acne-prone or aging skin.

Additionally, this device can be used in at-home settings for those who prefer to perform their own micro-needling treatments. The electric power source ensures consistent needle speed and depth, resulting in more effective and safer treatments than manual derma rollers. Whether used professionally or at home, the Electric Microneedle Machine is a versatile and effective tool for achieving smoother, more youthful-looking skin.

Customization:

Customize your Electric Micro Needle Device from Guangzhou, China with our Product Customization Services. Our Micro Needle Pen Device is perfect for Skin Rejuvenation, Acne Scar Treatment, and Wrinkle Removal. The Dermal Pen System is powered by electricity and operates at a frequency of 50-60Hz. The device comes in a sleek white color and measures 16.5cm X 4.5cm X 4.5cm.
