## Product Description

### 12-Pin Precision Electric Microneedling Device With 5V Output Voltage, Microchips, Agregado Familiar

#### Product Description:

With 12 needles, this machine is perfect for a variety of skin concerns. The needle length is adjustable, ranging from 0.25mm to 2.5mm, so you can customize your treatment to your specific needs.

Our machine also comes equipped with Crystal Cannula 32g, a popular choice for cosmetic microcrystal treatments. The De Martha nine needles are also included, providing even more options for achieving beautiful, healthy skin.

Whether you're looking to reduce fine lines and wrinkles, minimize the appearance of scars, or improve overall skin texture, our Electric Microneedle Machine is the perfect solution. And with an input voltage of 110-240V, you can use it anywhere in the world.

Don't settle for anything less than the best. Try our Electric Microneedle Machine today and experience the difference for yourself!

#### Features:

Product Name: Electric Microneedle Machine

Frequency: 50-60Hz

Usage: Skin Rejuvenation, Acne Scar Treatment, Wrinkle Removal

Input Voltage: 110-240V

Weight: 1.5kg

Needle Number: 12 Needles

This Electric Microneedle Machine is an Automated Needle Therapy System that is an Electric Skin Needling Machine. It is perfect for Skin Rejuvenation, Acne Scar Treatment, and Wrinkle Removal.

#### Applications:

The beauty needle is a vital component of the Electric Microneedle Machine product. The needle length ranges from 0.25mm to 2.5mm, making it easy to customize the needle length based on the user's needs. The needle length is long enough to penetrate the skin and stimulate the production of collagen. The product comes with different needle types, such as Crystal Cannula 32g and De Martha nine needles, which are essential for different skin types.

The Electric Microneedle Machine is designed for a wide range of application occasions and scenarios. The product is ideal for use in a beauty salon or spa, where professionals use it to perform cosmetic procedures such as skin rejuvenation, wrinkle removal, and skin tightening. The product is also ideal for home use, where individuals can use it to achieve the same results without the need for professional assistance.

The product is also suitable for individuals who want to address specific skin concerns such as acne scars, hyperpigmentation, and uneven skin tone. The microneedles penetrate the skin, creating microchannels that increase the absorption of skincare products, making them more effective in addressing skin concerns.

The Electric Microneedle Machine is also ideal for individuals who want to improve their overall skin health. The product stimulates collagen production, which is essential for maintaining skin elasticity and firmness. The product can also help improve blood circulation, reduce inflammation, and improve overall skin tone and texture.

Overall, the Electric Microneedle Machine is a versatile product that can be used in various settings and scenarios. Its customizable needle length, different needle types, and efficient functionality make it an excellent choice for individuals who want to improve their skin health and address specific skin concerns.
