Product Description

Professional Electric Microneedling Machine With Adjustable Needle Length

Product Description:

With a needle length ranging from 0.25mm to 2.5mm, the M5 Electric Skin Needling Machine is perfect for a variety of skin types and concerns. Whether you're looking to reduce the appearance of wrinkles, improve skin texture and tone, or minimize the look of scars or stretch marks, this microneedling device can help.

Featuring 12 needles and 5 speed levels, the M5 Electric Skin Needling Machine is both versatile and customizable. You can adjust the speed and needle depth to suit your individual needs and preferences, ensuring a comfortable and effective treatment every time.

In addition to its adjustable settings, the M5 Electric Skin Needling Machine also operates at a frequency of 50-60Hz. This helps to ensure a consistent, reliable performance with every use.

If you're new to microneedling, the M5 Electric Skin Needling Machine is a great way to get started. Its user-friendly design makes it easy to use, even for beginners. And because it's an automated system, you don't need to worry about manually adjusting the needle depth or speed. The device does all the work for you, ensuring a safe and effective treatment every time.

So if you're looking for a high-quality Electric Skin Needling Machine that can help you achieve a more youthful, radiant-looking complexion, the M5 model is definitely worth considering. With its versatile settings, user-friendly design, and reliable performance, it's sure to become a valuable addition to your beauty routine.

Features:

Product Name: Electric microneedle Machine

Needle Length: 0.25mm-2.5mm

Power Source: Electric

Weight: 1.5kg

Color: White

Input Voltage: 110-240V

Automated Microneedle System

De Martha nine needles

Crystal Cannula 32g

Applications:

The Electric Microneedle Machine is perfect for a range of occasions and scenarios. If you are looking to treat acne scars or other types of scarring, this machine can help to stimulate collagen production and promote healing. Similarly, if you are looking to reduce the appearance of fine lines and wrinkles, the Electric Microneedle Machine can help to smooth out your skin and give you a more youthful appearance. It is also great for skin rejuvenation, helping to improve the texture and tone of your skin, leaving it looking radiant and healthy.

One of the standout features of the Electric Microneedle Machine is its high frequency of 50-60Hz. This ensures that the machine operates smoothly and efficiently, providing you with the best possible results. Additionally, the machine comes in a sleek white color, which will complement any decor and look great in any setting.

The Electric Microneedle Machine also has 5 speed levels, which means that you can customize your treatment to suit your individual needs. Whether you are looking for a quick and easy treatment or a more intensive session, this machine can provide you with the level of treatment that you need.

Overall, the Electric Microneedle Machine is a great investment for anyone who is looking to improve the appearance of their skin. With its De Martha nine needles and cosmetic microcrystal technology, this machine is designed to provide you with nine injections in the hand, ensuring that you get the best possible results every time you use it.
