Product Description

Product Description:

This Fiber Optic Instrument features multiple LED wavelengths, including 620nm, 415nm, and 530nm, which work together to help reduce the appearance of fine lines and wrinkles, while also brightening and rejuvenating the skin.

One of the key benefits of this EMS Beauty Instrument is that it can help with skin whitening, making it an excellent choice for those looking to improve their skin tone and achieve a more even complexion. In addition, it is also effective for face slimming, face lifting, and anti-aging.

Available in both white and black, this CET RET RF Machine is easy to use and can be incorporated into any skincare routine. Whether you are looking to address specific skin concerns or simply want to maintain a healthy, youthful glow, this device is a great choice.

This is a technical table for a Fractional RF Beauty Machine, a type of Beauty Care Instrument or Beauty Medical Equipment.

handle 1 for face

handle 2 for body

handle 3 for body

handle 4 for body

Applications:

The RF EMS Beauty Instrument operates at a frequency of 1MHz, making it an efficient and effective tool for skin rejuvenation. This product is perfect for people who are looking for an OEM Thermage RF Machine. It works by emitting radiofrequency waves that penetrate deep into the skin, stimulating collagen and elastin production, which in turn tightens and lifts the skin.

The RF EMS Beauty Instrument is a versatile product that can be used on the face, neck, and body. It is ideal for people who are looking for Skin Tightening Slimming Beauty Equipment. Its EMS function helps improve blood circulation, which can reduce the appearance of cellulite and aid in slimming. This product is also perfect for those who would like to have a VELA-SHAPE Slimming Machine.

One of the key features of the RF EMS Beauty Instrument is its ability to whiten the skin. It is perfect for people who want to achieve a brighter and more even skin tone. This product is perfect for people who want to have a radiant glow. The RF EMS Beauty Instrument has a voltage range of 100-240VAC, making it suitable for use in different countries. This product is perfect for salon owners, beauty clinics, and individuals who want to have their own beauty equipment. The RF EMS Beauty Instrument is perfect for various occasions and scenarios. It is perfect for people who want to look their best for special events such as weddings, parties, and other social gatherings. It is also perfect for people who want to maintain their youthful appearance. This product is also perfect for people who want to relax and pamper themselves after a long day at work or during their free time.

Customization:

Customize your RF EMS Beauty Instrument with our product customization services!

Originating from Guangzhou, China, our Radio Frequency Facial Machine offers 5 different modes and an output power of 10W. It operates on a voltage range of 100-240VAC and offers three different LED wavelengths: 620nm, 415nm, and 530nm.

Along with these standard features, we also offer product customization services to make your Fiber Optic Instrument truly unique.

Whether you want to add extra LED wavelengths, adjust the output power, or modify the device's appearance, we can help.

Our services are perfect for beauty salons and spas looking to offer the latest in skin rejuvenation technology. With our customization options, you can create your own Salon Thermage RF Machine or CET RET RF Machine that perfectly meets the needs of your business and customers.
