Basic Information

- Place of Origin: China Guangzhou
- Brand Name: AISIA
- Certification: ISO CE HAD
- Model Number: Q1
- Minimum Order Quantity: 1
- Price: confer
- Packaging Details: Standard export packing
- Delivery Time: 5-8days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 Piece/Pieces per Month

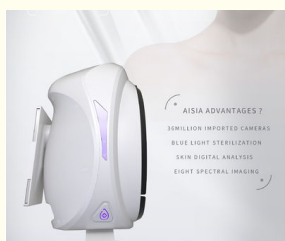

Product Specification

- Name: Skin Analysis Machine
- Color Temperature: 7200K
- Working Environment: 10 – 35 Celsius Degrees
- Pdf Print: YES
- Magnifier: Yes
- Detect Problem: 12 Skin Problem Detected
- Camera Sensor Model: CCD1/1.7
- Magnifier Rate: 2 X
- Packing Size: L68xW49xH51cm
- Highlight: 7200K Skin Analysis Machine,
Skin Analysis Machine Portable,
ISO Skin Analysis Device

Product Description

7200K Skin Analyzer With 2X Magnifier 12 Problem Detection CCD1/1.7 Camera

Product Description:

One of the standout features of this facial skin analyzer is its magnifier rate of 2X. This allows users to get an up-close and detailed view of their client's skin, making it easier to identify any issues or concerns. Additionally, the Skin Analysis Machine features a CCD1/1.7 camera sensor model that provides a megapixel count of 2000W. This high-resolution camera captures clear and detailed images of the skin, allowing users to see even the smallest imperfections.

The Skin Analysis Machine is also incredibly easy to use. Simply connect it to a computer running Windows XP, Vista, 7, 8, or 10, and you're ready to go. The accompanying software is user-friendly and intuitive, and allows users to capture, store, and analyze images of their client's skin over time. Plus, its portable design means that it can easily be transported from one location to another, making it ideal for use in spas, salons, and clinics.

Using the Skin Analysis Machine is an effective way to provide clients with a comprehensive skin analysis. With its advanced features, users can identify a range of skin concerns, including wrinkles, fine lines, sun damage, hyperpigmentation, and more. This information can be used to create customized skincare plans for each client, which can help improve the overall health and appearance of their skin. In summary, the Skin Analysis Machine is an excellent investment for any skincare professional. Its advanced features, easy-to-use software, and portability make it a versatile and effective tool for analyzing facial skin. Whether you're a dermatologist, aesthetician, or other skincare expert, the Skin Analysis Machine can help you provide your clients with the best possible care.

Features:

Product Name: Facial Skin Analyzer Machine

Weight: 2.5kg

Packing Size: L68xW49xH51cm

Computer Requirement: Windows XP/Vista/7/8/10

Magnifier: Yes

Power Supply: AC 100-240V, 50/60Hz

Technical Parameters:

Power Supply	AC 100-240V, 50/60Hz
Weight	2.5kg
Packing Size	L68xW49xH51cm
Working Environment	10 – 35 Celsius Degrees
Color Temperature	7200 K
Detect Problem	12 Skin Problem Detected
Type	Portable
Pdf Print	YES
Computer Requirement	Windows XP/Vista/7/8/10
Magnifier Rate	2 X

This table shows the technical parameters for the Face Recognition Body Temperature Scanner, a type of Dermatological Equipment also known as a Digital Skin Camera Microscope.

Applications:

The Skin Analysis Machine is compatible with Windows XP/Vista/7/8/10, making it easy to install and operate. Simply connect the machine to your computer, and you can start analyzing your client's skin right away. The machine is portable, which means that you can take it with you wherever you go, making it ideal for professionals who offer beauty services at different locations.

The Skin Analysis Machine is perfect for a wide range of occasions and scenarios. Beauty professionals can use this machine to analyze their client's skin before recommending a customized skin care routine. The machine can also be used to monitor the progress of a client's skin over time, making it easy to adjust the skincare routine as needed. In addition, the Skin Analysis Machine is an excellent tool for selling customized skin care products, such as face moisturizer machine, to clients. By analyzing the client's skin, you can recommend the right products that will help them achieve their desired results.

Overall, the Skin Analysis Machine is a must-have for any beauty professional who wants to provide their clients with the best possible care. With its advanced technology, portability, and ease of use, this machine is an excellent investment that will help you grow your beauty business and provide your clients with the personalized care they deserve.
