Basic Information

- Place of Origin: China Guangzhou
- Brand Name: AISIA
- Certification: ISO CE ROHS HAD
- Model Number: Q1
- Minimum Order Quantity: 1
- Price: confer
- Packaging Details: Standard export packing
- Delivery Time: 5-8days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 1000 Piece/Pieces per Month

Product Specification

- Name: Facial Skin Analyzer Machine
- Usb: 2.0 Port
- Type: Portable
- Pdf Print: YES
- Color Temperature: 7200 K
- Power Supply: AC 100-240V, 50/60Hz
- Magnifier: Yes
- Working Environment: 10 – 35 Celsius Degrees
- Packing Size: L68xW49xH51cm
- Highlight: **2000W Megapixel Facial Skin Analyzer Machine, Portable Facial Skin Analyzer Machine, ROHS Facial Skin Analysis Machine**

Product Description

2000W Megapixel Facial Skin Analyzer Machine For Non Invasive Rejuvenation Treatment

Product Description:

The 3D Skin Analyzer operates on an RGB + UV Operating System, providing a comprehensive analysis of your skin's condition. Its advanced technology allows for a more accurate and detailed analysis of your skin, enabling you to make informed decisions about your skincare routine.

Take advantage of the customized Skin Care Products that are available, tailored to your specific skin condition. The 3D Skin Analyzer provides a detailed report of your skin's condition, allowing you to choose the right products for your skin type.

Working in a temperature range of 10 – 35 Celsius Degrees, this device is suitable for use in a variety of environments. Its portable design makes it easy to transport to different locations, ensuring that you always have access to the latest skincare technology.

Invest in the 3D Skin Analyzer today and take the first step towards achieving healthy, radiant skin.

Features:

Product Name: Skin Analysis Machine

Type: Portable

Megapixel: 2000W

Power Supply: AC 100-240V, 50/60Hz

Packing Size: L68xW49xH51cm

Magnifier Rate: 2 X

This Digital Skin Analyzer, also known as a Digital Skin Camera Microscope, is a portable device that comes with a power supply of AC 100-240V, 50/60Hz. It has a high megapixel of 2000W and a magnifier rate of 2X. The packing size of the Face Moisturizer Machine is L68xW49xH51cm, making it easy to carry around and use on-the-go.

Technical Parameters:

Megapixel	2000W
Camera Sensor Model	CCD1/1.7
Magnifier	Yes
Power Supply	AC 100-240V, 50/60Hz
Usb	2.0 Port
Weight	2.5kg
Type	Portable
Operating System	RGB +UV
Working Environment	10 – 35 Celsius Degrees
Detect Problem	12 Skin Problem Detected

This Body Analyzer Machine is ideal for analyzing the skin and detecting any problems. With its 2000W megapixel camera sensor model CCD1/1.7 and magnifier, it provides detailed and accurate results. It is a portable device that can be powered through AC 100-240V, 50/60Hz and has a USB 2.0 port for convenient connectivity. Its operating system is RGB +UV and it works in a temperature range of 10 – 35 Celsius Degrees. With the ability to detect 12 skin problems, this device is a great tool for creating customized skin care products, including face moisturizer machine.

Applications:

The Skin Analyzer is the perfect tool for beauty professionals and skincare enthusiasts. It can be used in a variety of settings, including spas, dermatology clinics, and beauty salons. The machine is easy to operate, with its RGB + UV operating system that ensures accurate and reliable results.

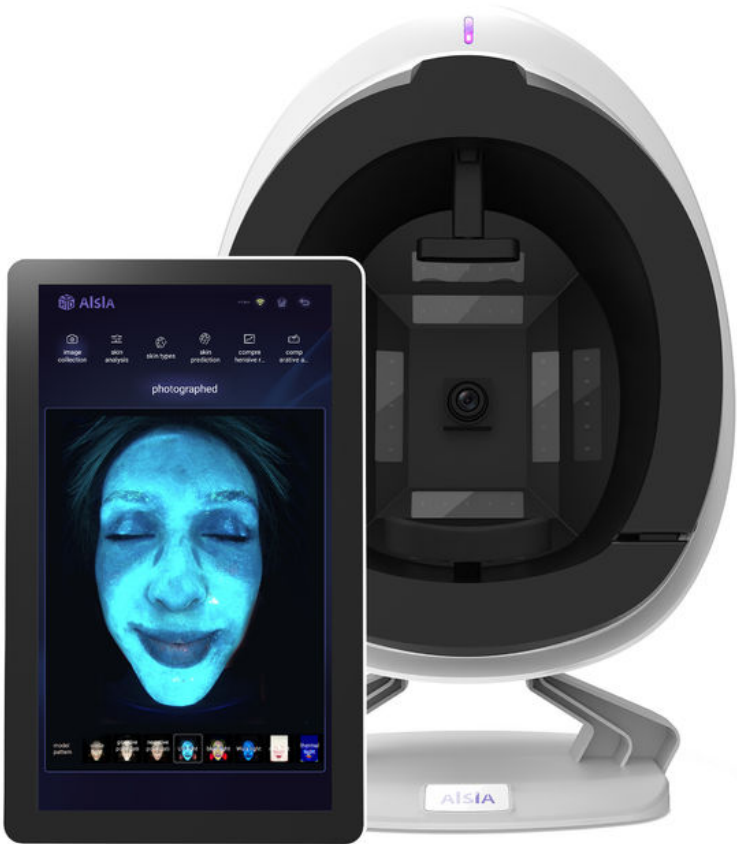

Whether you're looking to improve your skincare routine or offer personalized treatment plans to your clients, the Face Analyzer Machine is the perfect solution. The machine's pdf print feature allows you to easily share results with your clients, making it an essential tool for any skincare professional.

The Facial Skin Analyzer is perfect for a variety of occasions and scenarios. It can be used to identify and treat acne, rosacea, hyperpigmentation, and other skin conditions. It is also ideal for identifying areas of the skin that require extra attention, such as fine lines and wrinkles.

The Skin Analyzer is also a useful tool for monitoring the progress of skincare treatments. By providing a detailed analysis of the skin's condition, it allows you to see the impact of skincare products and treatments over time.

The Face Analyzer Machine is an essential tool for anyone looking to improve their skincare routine or offer personalized treatment plans

to clients. With its advanced technology and easy-to-use interface, it is the perfect addition to any beauty professional's toolkit.
