Basic Information

- Place of Origin: China Guangzhou
- Brand Name: LZR
- Certification: CE
- Model Number: Q9
- Minimum Order Quantity: 1
- Price: confer
- Packaging Details: Standard export packing
- Delivery Time: 5-8days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 Piece/Pieces per Month

Product Specification

- Name: RF Fractional CO2 Laser Machine
- Size: 360x450x1250mm
- Operation System: Ultrasonic
- Output Mode: Ultra Pulse, Single Pulse, Fractional
- Style: Portable
- Laser Working Mode: Continuous
- Laser Type: Fractional CO2 Laser
- Headpiece: Fractional, Vaginal, Normal Cut
- Net Weight: 45kg
- Highlight: Portable RF Fractional CO2 Laser Machine, RF Fractional CO2 Laser Continuous Working, Wrinkle Removal RF Fractional CO2 Laser

Product Description

Professional Fractional CO2 Laser Machine For Wrinkle Removal And Skin Resurfacing

Product Description:

The machine is equipped with a laser arm that originates from South Korea, providing the highest levels of precision and accuracy in the delivery of laser energy. The machine also features an Ultrasonic Operation System that ensures smooth and efficient operation, allowing for precise control of the laser energy for maximum effectiveness.

The headpiece of the Fractional RF CO2 Laser Machine is designed to provide a variety of treatment options, including Fractional, Vaginal, and Normal Cut. The Fractional headpiece is ideal for treating sun damage, fine lines, and wrinkles, while the Vaginal headpiece is designed to provide a range of health benefits for women, including improved vaginal health and increased satisfaction. The Normal Cut headpiece is ideal for treating a wide range of skin conditions, including acne scars, surgical scars, and stretch marks.

The CO2 Fractional Laser Machine is an advanced beauty treatment system that provides a range of benefits for a wide range of skin types. Whether you are looking to improve the appearance of fine lines and wrinkles, reduce the appearance of acne scars, or simply rejuvenate your skin, the Fractional RF CO2 Laser Machine is the perfect solution for your needs.

Features:

Product Name: RF Fractional CO2 Laser

Laser Arm Origin: From South Korea

Laser Power: 40 Watts

Style: Portable

Operation System: Ultrasonic

Headpiece:

Fractional

Vaginal

Normal Cut

This product features a Disco Laser Light and is equipped with a Bystronic CO2 Laser. The RF Fractional CO2 Laser product is a Fractional RF Machine that is both portable and easy to use.

Technical Parameters:

Fractional Co2 Laser Equipment	
Light Guiding System	7 Joints Arm
Language	Multi-language
Fractional Working Mode	Interval Continuous Working
Laser Arm Origin	From South Korea
Aiming Beam	650nm, ≤5mw
Laser Working Mode	Continuous
Power	40 Watts
Style	Portable
Laser Power	40 Watts
Operation System	Ultrasonic
IPL RF ND YAG Laser	
DPL Laser Machine	

Applications:

The laser type used in this machine is the Fractional CO2 Laser, which is known for its ability to penetrate deep into the layers of the skin to stimulate collagen production and reduce the appearance of fine lines, wrinkles, and scars. The laser working mode is continuous, providing consistent and reliable results for patients.

One of the unique features of this machine is its fractional working mode - interval continuous working. This mode divides the laser beam into thousands of tiny columns, targeting only a fraction of the skin at a time. This allows for faster healing and recovery time for patients, as well as reducing the risk of side effects.

The CO2 Fractional Laser Machine is suitable for a variety of skin concerns, including acne scars, sun damage, and hyperpigmentation. It can also be used for skin rejuvenation and tightening, as well as treating stretch marks and surgical scars.

This laser machine is compact and has a size of 360x450x1250mm, making it easy to move around and store. It also comes with a disco laser light, adding a stylish touch to any clinic or spa.

In terms of product application occasions and scenarios, the CO2 Fractional Laser Machine is ideal for dermatology clinics, medical spas, and aesthetic centers. It can be used by licensed dermatologists, plastic surgeons, and trained estheticians to provide safe and effective treatments for their patients.

Overall, the CO2 Fractional Laser Machine is a versatile and reliable tool for treating a range of skin concerns. With its advanced technology and user-friendly design, it is a must-have for any clinic or spa looking to provide high-quality laser treatments to their patients.

Customization:

FAQ:
