

40W Radiofrequency Fractional CO2 Laser Machine With Ultrasonic Operation System

Basic Information

Place of Origin: China Guangzhou

Brand Name: LZR
Certification: CE
Model Number: Q9
Minimum Order 1 Quantity:

• Price: confer

Packaging Details: Standard export packing

• Delivery Time: 5-8days

• Payment Terms: L/C, D/A, D/P, T/T, Western Union,

MoneyGram

• Supply Ability: 1000 Piece/Pieces per Month

Product Specification

Name: Radiofrequency Fractional CO2 Laser

• Laser Power: 40 Watts

Language: Multi-language
 Aiming Beam: 650nm, ≤5mw
 Operation System: Ultrasonic

Laser Type: Fractional CO2 Laser

• Feature: Acne Treatment, Pigment Removal, Skin

Rejuvenation

High Light: Medical Fractional CO2 Laser Machine, Skin

Rejuvenation Fractional CO2 Laser Machine,

CO2 Fractional Laser Machine

• Scan Pattern Size: 0.1*0.1mm-20*20mm

Highlight: Radiofrequency Fractional CO2 Laser Machine,

40W Radiofrequency Fractional CO2 Laser,

Product Description

40 Watts CO2 Laser With Continuous Laser Working Mode And Ultrasonic Operation System

Product Description:

One of the key features of this machine is its multi-language operation system, which allows practitioners to easily navigate the device's settings and customize treatments for their patients. The device also offers three output modes: Ultra Pulse, Single Pulse, and Fractional, giving practitioners the flexibility to choose the best treatment approach for each patient.

The Fractional RF CO2 Laser Beauty Machine utilizes a combination of fractional Co2 laser technology and radiofrequency (RF) energy to deliver precise, controlled energy to the skin. This combination of technologies allows for deep tissue penetration and precise targeting of the treatment area, resulting in improved skin texture, tone, and firmness.

Some of the key benefits of the Fractional RF CO2 Laser Beauty Machine include:

Improved skin texture, tone, and firmness

Reduced appearance of fine lines and wrinkles

Minimized pore size

Improved overall skin health and appearance

Whether used as a standalone treatment or in combination with other skin rejuvenation therapies, the Fractional RF CO2 Laser Machine is a powerful tool for achieving optimal skin health and appearance.

Features:

Product Name: RF Fractional CO2 Laser

Size: 360x450x1250mm Laser Power: 40 Watts

Features:

532 nm KTP Laser CO2 Fractional Laser Co2 Laser Beauty Machine

Technical Parameters:

Product Attribute	Value
Product Name	CO2 Fractional Laser
Fractional Working Mode	Interval Continuous Working
Laser Arm Origin	South Korea
Net Weight	45kg
Power	40 Watts
Laser Power	40 Watts
Laser Type	CO2 Fractional Laser
Language	Multi-language
Size	360x450x1250mm
Style	Portable
Laser Working Mode	Continuous
Additional Attributes	Fractional RF, CO2 Fractional Machine

Applications:

The laser arm of this product is imported from South Korea, which ensures its quality and durability. In terms of size, it measures 360x450x1250mm, which makes it compact and easy to store. The net weight of the product is 45kg, which makes it lightweight and easy to move around

The Fractional Co2 Laser Machine is perfect for various applications. It is commonly used to treat various skin conditions, such as acne scars, fine lines, wrinkles, and age spots. It is also used for skin resurfacing, which helps in improving skin texture and tone.

The product's Bystronic CO2 Laser technology allows for precise and accurate treatments, ensuring that the patient gets the best results. The Fractional Working Mode of the product allows for interval continuous working, which is perfect for longer treatment sessions.

Moreover, the product is perfect for various scenarios, such as medical spas, dermatology clinics, and plastic surgery clinics. It is also perfect for home use, especially for those who want to improve their skin's overall appearance and texture.

In conclusion, the Fractional Co2 Laser Machine is a versatile and efficient product that is perfect for various applications and scenarios. Its Bystronic CO2 Laser technology and Fractional Working Mode make it an excellent choice for longer treatment sessions, while its compact size and lightweight design make it easy to store and move around.

Customization: FAQ:

- Q: What is the place of origin for the RF Fractional CO2 Laser product?
- A: The RF Fractional CO2 Laser product is made in China Guangzhou.
- Q: What is the RF Fractional CO2 Laser used for?
- A: The RF Fractional CO2 Laser is used for skin rejuvenation, scar removal, and wrinkle reduction.
- Q: What is the wavelength of the RF Fractional CO2 Laser?
- A: The RF Fractional CO2 Laser has a wavelength of 10.6 micrometers.
- Q: How long is the recovery time after using the RF Fractional CO2 Laser?
- A: The recovery time after using the RF Fractional CO2 Laser varies depending on the depth and intensity of the treatment, but typically ranges from 3 to 10 days.
- Q: Is the RF Fractional CO2 Laser safe?
- A: Yes, the RF Fractional CO2 Laser is safe when used by a trained professional and following proper safety protocols.
