Product Description

1200W Hair Removal Laser Machine With 15-Inch LCD Screen And TEC Sapphire Contact Cooling

Product Description:

The device comes equipped with 2pcs fans that help to cool the skin during the hair removal process. This cooling system ensures that the treatment is comfortable and pain-free. The device also features a 15-inch touch screen display that makes it easy to use and navigate.

The pulse duration of the Laser Hair Treatment Device is adjustable and can be set between 10-400 Ms, which allows for customized treatments based on the user's needs. The device can be used on various parts of the body, including the face, arms, legs, underarms, and bikini area.

The Laser Hair Treatment Device is a safe and effective way to remove unwanted hair permanently. Unlike traditional hair removal methods like shaving and waxing, this device uses laser technology to target and destroy hair follicles, preventing future hair growth. The device is also gentle on the skin, making it a great option for those with sensitive skin.

Overall, the Laser Hair Treatment Device is an excellent investment for those looking for a permanent hair removal solution that is painless and easy to use. With its powerful laser, cooling system, and adjustable pulse duration, this device is a must-have for anyone who wants to achieve silky-smooth skin.

Features:

Product Name: Hair Removal Laser Machine

Style: Stationary, Vertical

Machine Power: 1200W

Safety Features: Skin Contact Cooling, Automatic Power Cut-off

Energy Density: Up To 120 J/cm2

Machine App: Permanent Laser Hair Removal Machines

This Hair Removal Laser Machine is a top-of-the-line Laser Hair Treatment Device, designed for effective and permanent hair removal. With a powerful 1200W machine power, this Hair Removal Laser Machine boasts an energy density of up to 120 J/cm2, delivering impressive results in a short amount of time. Safety features such as skin contact cooling and automatic power cut-off ensure the safety of the user during operation. The machine is also equipped with a dedicated app which can be used with any Permanent Hair Removal Device, making it easy to monitor and track your hair removal progress.

MULTIPLE OPTIONS

Applications:

With its stationary and vertical style, this hair depilator machine is easy to use and can be used in various occasions and scenarios. It is perfect for beauty salons, spas, and even for personal use at home. Its compact design allows for easy storage and transport, making it the ideal companion for those who are always on the go.

One of the most important features of this laser hair treatment device is its safety features. It is equipped with skin contact cooling, which ensures the comfort of the user during the hair removal process. Additionally, it has an automatic power cut-off feature that prevents accidental injuries or damage to the skin.

This hair removal laser machine is suitable for all skin types, from I-VI. Its 1200W machine power and energy density of up to 120 J/cm² make it an efficient and effective device for hair removal. It can remove unwanted hair from any part of the body, including the face, underarms, legs, and bikini area.

The NGY-1 Hair Removal Laser Machine is perfect for those who want to achieve smooth, hair-free skin without the hassle of shaving or waxing. It is a cost-effective and convenient solution for hair removal, and with its permanent results, you can say goodbye to unwanted hair for good.
