Basic Information

- Place of Origin: China Guangzhou
- Brand Name: LZR
- Certification: CE
- Model Number: x9
- Minimum Order Quantity: 1
- Price: confer
- Packaging Details: Standard export packing
- Delivery Time: 5-8days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 Piece/Pieces per Month

Product Specification

- Handle Screen: 3.5inch
- Cavitation: 40K
- Certifications: CE,
- Functions: Weight Loss
- Laser Wavelength: Laser Diode AlGaInp 635-650nm
- Freezing Temperature: -15-5°C
- Service: OEM ODM
- Frozen Head Pressure: 0-100kpa
- Name: Fat Freezing Cryolipolysis Machine
- Highlight: **Laser Diode Cryolipolysis Fat Freezing Machine**
, Fat Freezing Cryolipolysis Machine,
Cavitation Machine 40khz

Product Description

Product Description:

The Fat Freezing Machine has a freezing temperature range of -15-5°C, which is the perfect temperature range for targeting and destroying fat cells without harming the surrounding tissues. It is a stationary device that can be used on various parts of the body, such as the abdomen, thighs, love handles, arms, and back. The machine has a vacuum pressure range of 10-80KPa, which helps to suck in the targeted area and apply pressure to the fat cells.

The Cryolipolysis Slimming Machine also has a cavitation feature of 40K, which helps to break down fat cells and improve blood circulation. This feature helps to enhance the effectiveness of the device, making it a popular alternative to traditional HIFU Slimming Machine treatments.

The Fat Freezing Machine is easy to use and does not require any downtime or recovery period. It is a safe and effective method of fat reduction that has been clinically proven to reduce fat by up to 25% after a single session. The device is suitable for people who want to get rid of stubborn fat in specific areas of their body without undergoing surgery or invasive procedures.

The Cryolipolysis Slimming Machine is designed for professional use and is commonly used in beauty salons and spas. It is a popular treatment for people who want to achieve their desired body shape without the need for surgery or liposuction. The machine is also a great investment for businesses as it can be used on multiple clients, making it a cost-effective solution for fat reduction.

In conclusion, the Cryolipolysis Slimming Machine is a revolutionary device that offers a safe and effective method of fat reduction. It is a non-invasive and painless treatment that uses freezing temperature, vacuum pressure, and cavitation to destroy fat cells. The machine is easy to use, has no downtime, and can be used on various parts of the body. It is a popular alternative to traditional HIFU Slimming Machine treatments and is suitable for people who want to achieve their desired body shape without undergoing surgery or invasive procedures.

Features:

Product Name: Cryolipolysis Slimming Machine

Work Model: Pulse

Handle Screen: 3.5inch

Treatment Areas: Abdomen, Thighs, Arms, Love Handles, Back

Service: OEM ODM

Stationary: Yes

Technical Parameters:

Technical Parameters	Description
Treatment Areas	Abdomen, Thighs, Arms, Love Handles, Back
Functions	Weight Loss
Certifications	CE
Frozen Head Pressure	0-100kpa
Laser Wavelength	Laser Diode AlGalnp 635-650nm
Freezing Temperature	-15-5°C
Work Model	Pulse
Vacuum Pressure	10-80KPa
Lipolaser	Diodes Liposlim For Fat Removal
Stationary	Yes

Big vacuum RF laser head for body

Waist, abdomen, thigh
fat reduction and shaping

Vacuum RF laser head for body arms

Shoulder, neck, back and

Skin Tightening

Vacuum RF laser head for Face and Eyes

Remove wrinkles around eyes
Lift face contour
Remove neck wrinkles
Skin Tightening

40KHz Vela Vacuum handle

Waist, abdomen, thigh
fat reduction and shaping

Applications:

The Cryolipolysis Slimming Machine is equipped with a Frozen Head Pressure feature that ranges from 0-100kpa. This feature enables the user to adjust the level of pressure, providing a comfortable and pain-free experience. The Laser Wavelength feature uses a Laser Diode AlGalnp 635-650nm, which is a safe and effective way to target fat cells without damaging surrounding tissues.

The Handle Screen feature on the Cryolipolysis Slimming Machine is a 3.5-inch display that provides a clear and easy-to-read interface. This feature allows the user to monitor the progress of the treatment and adjust settings as needed.

The Cryolipolysis Slimming Machine also includes a Lipolaser feature that uses Diodes Liposlim for Fat Removal. This feature targets stubborn fat cells that are resistant to traditional methods of weight loss, resulting in a more toned and contoured appearance.

The Laser freezing weight loss machine has been certified by CE, ensuring that it meets the highest standards of safety and effectiveness. This product is suitable for a wide range of individuals who are looking to achieve their body shaping and slimming goals.

The Cryolipolysis Slimming Machine is perfect for use in a variety of settings, including beauty salons, spas, and medical clinics. It can be used to target problem areas such as the abdomen, thighs, and arms. This product is ideal for individuals who are looking to improve their body shape and contour without undergoing invasive procedures.

In conclusion, the Laser freezing weight loss machine is a must-have Body Slimming Machine that offers safe and effective solutions for body shaping and slimming. With its advanced features and certifications, it is the perfect product for anyone looking to achieve their body goals and improve their overall appearance.

Customization:

Our Laser freezing weight loss machine is a top-of-the-line slimming machine that can be customized to meet your specific needs. Made in China Guangzhou, this machine has a laser wavelength of Laser Diode AlGalnp 635-650nm and a vacuum pressure of 10-80KPa, making it a powerful tool for body shaping and slimming.

The treatment areas for this machine include the abdomen, thighs, arms, love handles, and back, making it a versatile option for anyone looking to achieve their ideal body shape. In addition, this product has received CE certification, ensuring that it meets the highest safety and quality standards.

Our work model for this product is pulse, which allows for precise and effective treatment. We also offer customization services to ensure that the machine meets all of your unique needs. Whether you're looking for a Cavitation Body Slimming Machine, Body Shaping

Slimming Machine, or simply a powerful and effective Slimming Machine, our Laser freezing weight loss machine is the perfect solution.

FAQ:

Q: What is the brand name of the slimming machine?

A: The brand name of the slimming machine is Laser freezing weight loss machine.

Q: Where is the slimming machine manufactured?

A: The slimming machine is manufactured in China Guangzhou.

Q: How does the Cryolipolysis Slimming Machine work?

A: The Cryolipolysis Slimming Machine uses controlled cooling technology to freeze and eliminate unwanted fat cells without damaging surrounding tissues. The treated fat cells are naturally eliminated from the body over time.

Q: Is the Cryolipolysis Slimming Machine safe?

A: Yes, the Cryolipolysis Slimming Machine is safe. The treatment is non-invasive and does not require any anesthesia. It has been cleared by the FDA as a safe and effective treatment for fat reduction.

Q: How many sessions of Cryolipolysis Slimming Machine are needed to see results?

A: The number of sessions needed varies from person to person depending on the amount of fat being treated and individual body composition. Typically, patients see noticeable results after one to two sessions, with optimal results achieved after three to four sessions.
