Product Description

1-10J/CmU00b2 Energy Density Salon Grade Hair Removal Laser Machine Model LB-100

Product Description:

The machine comes equipped with 5 treatment probes, allowing it to perform a variety of treatments. Whether you're looking to remove hair, rejuvenate your skin, or reduce the appearance of scars or wrinkles, the IPL Laser Beauty Machine has you covered. One of the key features of the IPL Laser Beauty Machine is its energy density range of 1-10J/cm². This allows for a precise and effective treatment with minimal discomfort for the client. Additionally, the machine can be used for both IPL and Fractional Co2 Laser treatments. Overall, the IPL Laser Beauty Machine is a great investment for any beauty business or individual looking to improve their skin's appearance. With its versatility, ease of use, and effectiveness, it's a must-have in any beauty toolkit.
