Basic Information

- Place of Origin: China Guangzhou
- Brand Name: LZR
- Certification: CE
- Model Number: P6
- Minimum Order Quantity: 1
- Price: confer
- Packaging Details: Standard export packing
- Delivery Time: 5-8days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 Piece/Pieces per Month

Product Specification

- Name: Laser Beauty Machine
- Laser Pulse: Pico Laser
- Energy Density: $\leq 0.6 \text{ J/cm}^2$
- Rf Frequency: 2M
- Screen: 12inch
- Maximum Energy: 2000M
- Voltage: AC220v \pm 10% 50Hz, 110v \pm 10% 60Hz
- Light Source: ND:YAG Solid Laser
- Aiming Beam: Diode 655 Nm (Red), Adjustable Off/on
- Highlight: **Multifunctional IPL Laser Beauty Machine, Tattoo Removal Laser Beauty Machine**

Product Description

Multifunctional IPL Laser Beauty Machine For Tattoo Removal Maximum Energy 2000M

Product Description:

One of the key features of this Aesthetic Laser Machine is its adjustable Spot Size, which ranges from 2 to 10mm, allowing for precise and customizable treatments. Additionally, the machine is equipped with a 12inch Screen, which provides clear and easy-to-read information about the treatment settings and progress.

With its advanced technology and user-friendly design, the Picosecond Laser Machine is a popular choice for both experienced and novice practitioners in the field of aesthetic medicine. Its ability to deliver fast and effective results, combined with its non-invasive nature, makes it a highly sought-after tool for a wide range of skin concerns.

Whether you're looking to remove unwanted tattoos, reduce the appearance of pigmentation, or tighten and rejuvenate the skin, the Picosecond Laser Machine is a reliable and effective choice. Its precision and power make it a valuable addition to any aesthetic clinic or spa.

Features:

Product Name: Picosecond Laser Machine

Other Name: Picosecond Laser

Feature: Skin Tightening, Tattoo Removal

Touch Screen Size: 12 Inch

Wave Length: 1064nm, 532nm

Light Source: ND:YAG Solid Laser

Technical Parameters:

Energy Density	$\leq 0.6 \text{ J/cm}^2$
Touch Screen Size	12 Inch
Laser Power	2700W

Wave Length	1064nm, 532nm
Light Source	ND:YAG Solid Laser
Feature	Skin Tightening, Tattoo Removal
Spot Size	2-10 Mm
Other Name	Picosecond Laser
Voltage	AC220v±10% 50Hz, 110v±10% 60Hz
Rf Frequency	2M

This Aesthetic Laser Machine, also known as Fractional infrared laser skin tightening and Superpicosecond freckle machine, is a powerful tool for tattoo removal and skin tightening procedures.

APPLICATIONS

**Hair
Removal**

**Hemangioma
Removal**

**Blood Vein
Removal**

**Vascular
Removal**

**Skin
Rejuvenation**

**Cure Ringworm
of The Nails**

COMPARISON BEFORE AND AFTER USE

Applications:

The LZR P6 Picosecond Laser Machine is a versatile product that can be used in a variety of settings. Here are some of the product application occasions and scenarios:

810 Skin Rejuvenation Machine

The P6 is ideal for use in a skin rejuvenation clinic. The machine can be used to treat a variety of skin issues, including acne scars, wrinkles, and pigmentation. The P6 works by using ultra-short pulses of laser energy to stimulate the production of collagen and elastin in the skin. This process can help to improve skin texture, tone, and elasticity, leaving patients with a more youthful appearance.

Superpicosecond Freckle Machine

The P6 can also be used as a freckle removal machine. Freckles are caused by an overproduction of melanin in the skin, and they can be difficult to treat with traditional laser technologies. However, the P6 is able to deliver ultra-short pulses of laser energy that can break up the melanin particles, allowing the body to naturally eliminate them. This process can help to reduce the appearance of freckles, leaving patients with a more even skin tone.

Tattoo Removal Machine

The P6 can also be used as a tattoo removal machine. Tattoos are created by injecting ink into the skin, and traditional laser technologies are often ineffective at removing them. However, the P6 is able to deliver high-energy pulses of laser light that can break up the ink particles, allowing the body to naturally eliminate them. This process can help to fade tattoos over time, leaving patients with clearer skin. Overall, the LZR P6 Picosecond Laser Machine is a powerful and versatile device that can be used in a variety of settings. Whether you are a skin rejuvenation clinic, a freckle removal specialist, or a tattoo removal expert, the P6 is the perfect tool for the job.

Customization:

Support and Services:

The Picosecond Laser Machine is a high-tech product and requires technical support to ensure proper operation and maintenance. Our team of experienced engineers and technicians provide a range of services, including:

- Installation and setup of the machine
- Training on how to operate the machine
- Technical support for any issues or malfunctions
- Regular maintenance and cleaning of the machine
- Upgrades and software updates to ensure optimal performance

We are committed to providing our customers with the highest level of technical support and services to ensure the best possible experience with our Picosecond Laser Machine.

Packing and Shipping:

Product Packaging:

- 1 Picosecond Laser Machine
- 1 Power Cord
- 1 Foot Pedal
- 1 Pair of Protective Eyewear
- 1 User Manual

Shipping Information:

Shipping Method: UPS Ground

Estimated Delivery Time: 3-5 business days

Shipping Cost: Free

Tracking Information: Will be provided via email once the item has shipped

FAQ:

Q: What is the brand name of this laser machine?

A: The brand name of this laser machine is LZR.

Q: What is the model number of this laser machine?

A: The model number of this laser machine is P6.

Q: Where is this laser machine made?

A: This laser machine is made in China Guangzhou.

Q: What is the wavelength of the laser used in this machine?

A: This laser machine uses a picosecond laser with a wavelength of 1064nm.

Q: What type of skin concerns can this laser machine treat?

A: This laser machine can treat a variety of skin concerns including tattoo removal, pigmentation removal, acne scar removal, and wrinkle reduction.
