Basic Information

- Place of Origin: China Guangzhou
- Brand Name: LZR
- Certification: CE
- Model Number: P6
- Minimum Order Quantity: 1
- Price: confer
- Packaging Details: Standard export packing
- Delivery Time: 5-8days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 Piece/Pieces per Month

Product Specification

- Name: Picosecond Laser Machine
- Spot Size: 2-10 Mm
- Wave Length: 1064nm, 532nm
- Maximum Energy: 2000M
- Rf Frequency: 2M
- Touch Screen Size: 12 Inch
- Aiming Beam: Diode 655 Nm (Red), Adjustable Off/on
- Screen: 12inch
- Energy Density: $\leq 0.6 \text{ J/cm}^2$
- Highlight: **Picosecond Laser Machine 1064nm, 12 inch Screen Picosecond Laser Machine, Picosecond Laser Device 532nm**

Product Description

Advanced 12inch Screen Picosecond Laser Machine For 110v±10% 60Hz Voltage Needs

Product Description:

One of the key features of the Picosecond Laser Machine is its spot size range of 2-10 mm. This allows for precise targeting of specific areas, making it ideal for a variety of skin types and conditions. Additionally, its energy density is set at $\leq 0.6 \text{ J/cm}^2$, which ensures safe and effective treatments for patients.

Whether you're looking to tighten loose skin, reduce the appearance of fine lines and wrinkles, or improve overall skin tone and texture, the Picosecond Laser Machine can provide the results you're looking for. Its advanced technology allows for fast and efficient treatments, with little to no downtime for the patient.

The Picosecond Laser Machine is designed to be user-friendly, with easy-to-use controls that can be customized to suit the needs of each individual patient. It is also equipped with safety features that help to reduce the risk of injury or damage to the skin, ensuring a safe and effective treatment every time.

Overall, the Picosecond Laser Machine is a highly advanced and effective tool for anyone looking to improve the appearance of their skin. Whether you're looking to reduce the signs of aging or simply improve overall skin quality, this machine is the perfect choice for achieving your goals.

With its powerful technology, user-friendly controls, and safe and effective treatments, the Picosecond Laser Machine is a must-have for any aesthetic clinic or spa looking to provide top-quality services to their clients. So why wait? Invest in the Picosecond Laser Machine today and start providing your clients with the best possible skin rejuvenation treatments!

Finally, the Picosecond Laser Machine operates on both AC220v±10% 50Hz and 110v±10% 60Hz voltages, ensuring that it can be used in a variety of settings around the world, making it an ideal option for spas and clinics around the globe.

Features:

Product Name: Picosecond Laser Machine

Feature: Skin Tightening, Tattoo Removal

Laser Pulse: Pico Laser

Rf Frequency: 2M

Spot Size: 2-10 Mm

Maximum Energy: 2000M

This Picosecond Laser Machine is the perfect solution for skin rejuvenation, tattoo removal, and overall aesthetic laser treatments. With its Pico Laser technology, it offers precise and effective results. The Rf Frequency of 2M, spot size of 2-10 mm, and maximum energy of 2000M makes it a versatile and reliable choice for any aesthetic practice.

APPLICATIONS

**Hair
Removal**

**Hemangioma
Removal**

**Blood Vein
Removal**

**Vascular
Removal**

**Skin
Rejuvenation**

**Cure Ringworm
of The Nails**

After

After

Voltage	AC220v±10% 50Hz,110v±10% 60Hz
Laser Pulse	Pico Laser
Laser Power	2700W
Energy Density	≤ 0.6 J/cm²

Aiming Beam	Diode 655 Nm (Red), Adjustable Off/on
Wave Length	1064nm, 532nm
Light Source	ND:YAG Solid Laser
Other Name	Picosercond Laser
Maximum Energy	2000M
Rf Frequency	2M

This table shows technical parameters for the Picosercond Laser, also known as the Superpicosecond freckle machine or Laser beauty machine. It has a voltage of AC220V±10% 50Hz, 110V±10% 60Hz, laser power of 2700W, and energy density of $\leq 0.6 \text{ J/cm}^2$. The aiming beam is a diode 655 Nm (Red), adjustable off/on and the wave length is 1064nm, 532nm. The light source is ND:YAG Solid Laser. The maximum energy is 2000M and the Rf frequency is 2M.

Applications:

One of the key applications for the LZR P6 is in the field of cosmetic dermatology. This machine is highly effective for removing tattoos, pigmented lesions, and other skin blemishes, thanks to its precise and powerful laser pulses. Additionally, the LZR P6 can be used as a Fractional laser machine to provide skin rejuvenation and resurfacing treatments, helping to reduce the appearance of fine lines and wrinkles, as well as scars and other skin imperfections.

In addition to its cosmetic applications, the LZR P6 is also highly effective for a range of medical treatments. For example, it can be used as a DPL Laser Machine for treating acne and other skin disorders. It can also be used as a Fractional infrared laser skin tightening machine, helping to improve skin elasticity and reduce the appearance of sagging skin.

The LZR P6 is easy to use and comes equipped with a 12 inch screen that provides clear and detailed information about each treatment. It also features a powerful laser that is capable of delivering up to 2700W of power, making it suitable for a wide range of skin types and conditions.

With its advanced technology and powerful performance, the LZR P6 Picosecond Laser Machine is the perfect solution for anyone looking to improve their skin health and appearance. Whether you're dealing with a stubborn tattoo or just looking to improve your overall skin tone and texture, this machine is sure to provide you with the results you're looking for.

Customization:

LZR P6 Picosecond Laser Machine is a top-quality laser machine that is perfect for Fractional Infrared Laser Skin Tightening. The laser pulse is Pico Laser and has a maximum energy of 2000M. The energy density of the laser is $\leq 0.6 \text{ J/cm}^2$. This machine is perfect for use in beauty clinics and salons.

Our Product Customization Services allow you to tailor the LZR P6 Picosecond Laser Machine to your specific needs. We can modify the machine to suit your individual requirements, ensuring that you get the best results possible.

The LZR P6 Picosecond Laser Machine is manufactured in China Guangzhou and is a high-quality machine that is built to last. It operates at a voltage of $\text{AC}220\text{V}\pm 10\%$ 50Hz, $110\text{V}\pm 10\%$ 60Hz. This is a versatile machine that can also be used as an IPL Laser Beauty Machine.

The LZR P6 Picosecond Laser Machine is also known as the Picosecond Laser. It is a top-of-the-line machine that is perfect for Fractional Infrared Laser Skin Tightening. Contact us today to learn more about our Product Customization Services.

Support and Services:

The Picosecond Laser Machine is a cutting-edge technology that delivers ultra-short pulses of energy to the skin, targeting specific areas to treat a range of skin concerns. Our product technical support and services include:

Free training sessions for operating and maintaining the machine

24/7 technical support via phone or email

On-site repair services

Regular software updates to ensure optimal performance

Access to a dedicated customer service team for any questions or concerns

Our team is committed to providing exceptional support and services to ensure you get the most out of your Picosecond Laser Machine.

Packing and Shipping:

Product Packaging:

1 Picosecond Laser Machine

1 Power Cord

1 User Manual

1 Protective Eyewear

1 Aluminum Case

Shipping:

Shipping Method: UPS/FedEx/DHL

Estimated Delivery Time: 3-5 Business Days

Shipping Cost: Calculated at Checkout

Tracking Number: Provided

FAQ:

Q: What is the brand name of this laser machine?

A: The brand name of this laser machine is LZR.

Q: What is the model number of this laser machine?

A: The model number of this laser machine is P6.

Q: Where is this laser machine manufactured?

A: This laser machine is manufactured in Guangzhou, China.

Q: What is the wavelength of the laser used in this machine?

A: The laser used in this machine has a wavelength of 532 nm.

Q: What is the typical application of this laser machine?

A: This laser machine is commonly used for tattoo removal, pigmented lesion removal, and skin rejuvenation treatments.
