Product Description

12 Inch Touch Screen 810 Skin Rejuvenation Machine With 2-10 Mm Spot Size

Product Description:

The Picosecond Laser Machine is equipped with an ND:YAG solid laser light source that ensures a safe and reliable treatment process. The light source emits a high-intensity laser beam that can penetrate deep into the skin to target the root cause of the problem. The machine is designed to cater to the needs of both skin tightening and tattoo removal. The Fractional Infrared Laser Skin Tightening feature of the machine is ideal for people who are looking to enhance the appearance of their skin. The laser energy is delivered in short pulses that stimulate the production of collagen and elastin in the skin. This, in turn, makes the skin look firmer, smoother, and more youthful.

The Picosecond Laser Machine also features a powerful tattoo removal feature that can help people get rid of unwanted tattoos. The machine delivers a high-intensity laser beam that breaks down the ink particles into smaller fragments. These fragments are then eliminated naturally by the body's immune system. The machine is designed to cater to the needs of people with all types of tattoos, including difficult-to-remove tattoos.

The maximum energy of the Picosecond Laser Machine is 2000M, which makes it one of the most powerful laser machines in the market. The machine is designed to deliver a quick and efficient treatment process, which ensures that the patients can get back to their routine activities without any delay. The machine is also equipped with a cooling system that ensures a comfortable and painless treatment process for the patients.

In conclusion, the Picosecond Laser Machine is a reliable and efficient laser beauty machine that is designed to cater to the needs of skin tightening and tattoo removal. The machine features a Pico Laser pulse, an ND:YAG solid laser light source, and a powerful Fractional Infrared Laser Skin Tightening feature that ensures a safe and reliable treatment process. The machine is also equipped with a powerful tattoo removal feature and a cooling system that ensures a comfortable and painless treatment process for the patients.

Features:

Product Name: Picosecond Laser Machine

Voltage: AC220V±10% 50Hz, 110V±10% 60Hz

Laser Pulse: Pico Laser

Other Name: Picosecond Laser

Energy Density: $\leq 0.6 \text{ J/cm}^2$

Rf Frequency: 2M

Application: Aesthetic Laser Machine

Function: Aesthetic Laser Machine, Fractional laser machine

Technical Parameters:

Energy Density	$\leq 0.6 \text{ J/cm}^2$
Maximum Energy	2000M
Laser Pulse	Pico Laser
Other Name	Picosecond Laser
Touch Screen Size	12 Inch
Voltage	AC220v \pm 10% 50Hz, 110v \pm 10% 60Hz
Screen	12inch
Aiming Beam	Diode 655 Nm (Red), Adjustable Off/on
Light Source	ND:YAG Solid Laser
Rf Frequency	2M

This is technical information for the Picosecond Laser Machine, also known as the Picosecond Laser. It has a touch screen size of 12 inches and an aiming beam of Diode 655 Nm (Red), adjustable off/on. The light source is ND:YAG Solid Laser and the RF frequency is 2M. The maximum energy is 2000M and the laser pulse is Pico Laser. The energy density is limited to $\leq 0.6 \text{ J/cm}^2$. The voltage is AC220v \pm 10% 50Hz, 110v \pm 10% 60Hz.

This product can be used for IPL Laser Beauty Machine, Fractional infrared laser skin tightening, and Laser beauty machine applications.

Applications:

One of the key features of the LZR P6 is its ability to effectively tighten skin using fractional infrared laser technology. This makes it an excellent choice for beauty clinics and spas offering non-invasive skin rejuvenation treatments. The machine's touch screen interface, which measures 12 inches, makes it easy for operators to adjust settings and monitor treatment progress in real-time.

Another common application for the LZR P6 is tattoo removal. The ND:YAG solid laser light source is highly effective at breaking down tattoo ink particles, making it a popular choice among tattoo removal specialists. The machine's precision and power make it possible to remove even the most stubborn tattoos with minimal discomfort for the patient.

Overall, the LZR P6 Picosecond Laser Machine is a reliable and versatile IPL Laser Beauty Machine that is suitable for a wide range of applications. Whether you're looking to offer fractional infrared laser skin tightening, tattoo removal, or any other laser beauty treatment, this machine is an excellent choice that won't disappoint.

PRODUCT DETAILS

Learn more about the product

01

Cryogen Based Dynamic Cooling Device Handpiece, Comfortable for treatment

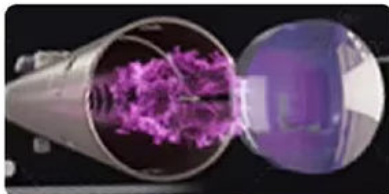

Shooting 40 Million for longer lifetime

02

1.5 to 26mm Spot Sizes

Especially spot sizes 1.5, 3.0, 24, 26mm can be provided as demands

Suitable different parts treatment, treatment faster and save time

03

USA imported lamp and rod

Original USA imported lamp and rod , Energy more stronger, Energy output stable

04

Air Cooled Compatible Handpiece

This device promote patient comfort by directing cold air to the treatment area

Customization:

Our product customization services ensure that our clients receive a personalized experience with their laser beauty machine. We offer customized settings to match unique skin types and treatment needs. Our services also include branding options to make the machine uniquely yours. Our 810 skin rejuvenation machine is perfect for those looking for a non-invasive and effective skin treatment. Overall, the LZR P6 Picosecond Laser Machine is the ideal choice for those looking for a high-quality aesthetic laser machine that offers exceptional results. Our customization services ensure that each client receives a personalized experience that meets their unique needs.

Support and Services:

The Picosecond Laser Machine is a high-tech laser device that is designed for precision laser cutting and engraving of various materials. It is equipped with advanced laser technology that allows for precise control of laser energy and pulse duration, making it suitable for a wide range of applications.

Our product technical support and services include:

Installation and setup
Training and education
Maintenance and repair
Technical troubleshooting
Software upgrades and updates
Customization and integration

Our team of technical experts and engineers are dedicated to providing the highest level of support and services to ensure that our customers get the most out of their Picosecond Laser Machine. We offer both on-site and remote support, and are available to answer any questions or concerns that our customers may have.

Packing and Shipping:

Product Packaging:

1 Picosecond Laser Machine
1 Power cord
1 Footswitch
1 Pair of goggles
1 User manual

Shipping:

Shipping method: DHL Express

Estimated delivery time: 3-5 business days

Shipping cost: Calculated at checkout

Shipping destinations: Worldwide

FAQ:

Q: What is the brand name of this product?

A: The brand name of this product is LZR.

Q: What is the model number of this product?

A: The model number of this product is P6.

Q: Where is this product made?

A: This product is made in China Guangzhou.

Q: What is the function of the Picosecond Laser Machine?

A: The Picosecond Laser Machine is used for tattoo removal, pigmentation removal, skin rejuvenation, and other related treatments.

Q: What is the warranty on this product?

A: Please refer to the warranty information provided with the product.
