- Laser Type: Other
- Highlight: Customized Diode Hair Removal Laser Machine, 800W Diode Hair Removal Laser Machine

Product Description

Customizable 800W Diode Laser Hair Removal Machine 60 Million Light Outputs

Product Description:

The Hair Depilator Machine is designed to cater to a wide range of skin types. It is suitable for skin types I-VI, making it a versatile option for people with different skin tones. It offers a pulse duration of 10-400 Ms, which allows it to target hair follicles with precision and effectiveness. This laser hair removal device is a highly effective solution for people who are looking for a permanent hair removal device. Whether you're looking to remove hair from your legs, arms, underarms, or bikini line, the Hair Depilator Machine is the perfect device for you. It is easy to use and provides long-lasting results. The machine uses laser technology to target and destroy hair follicles, preventing hair growth in the treated areas. With consistent use, this Permanent Hair Removal Device can help you achieve smooth and hairless skin.

Features:

Product Name: Hair Removal Laser Machine

Style: Stationary, Vertical

Safety Features: Skin Contact Cooling, Automatic Power Cut-off

Carbon powder application required)

Mainly (cleaning superficial pigments
in the epidermis)

Applications:

The LZR Hair Removal Laser Machine is suitable for both home and salon use. It can be used to remove hair from various body parts, including the face, arms, legs, underarms, and bikini area. The device is ideal for individuals with busy schedules who want to remove hair quickly and efficiently. The machine is also perfect for salon owners who want to offer laser hair treatment services to their clients.

The LZR Hair Removal Laser Machine features TEC+Sapphire Contact Cooling, which ensures that the skin remains cool during the hair removal process. The cooling system helps to prevent skin damage, making the device suitable for all skin types. The machine has a power output of 1200W, making it efficient and fast.

The LZR Hair Removal Laser Machine is ideal for individuals who want to achieve permanent hair reduction without experiencing any pain or discomfort. The machine is also perfect for individuals who are tired of using traditional hair removal methods, such as waxing and shaving. With the LZR Hair Removal Laser Machine, you can achieve smooth, hairless skin in a matter of minutes.

In summary, the LZR Hair Removal Laser Machine is a reliable and effective hair removal device that is suitable for both home and salon use. It is a painless hair removal system that utilizes advanced laser technology to offer permanent hair reduction. The machine features TEC+Sapphire Contact Cooling, a 15-inch touch screen display, and a power output of 1200W, making it efficient and fast.
