

Multi Language Fractional CO2 Laser System 40W For Interval / Continuous Working

Our Product Introduction

For more products please visit us on hifubeauty-machine.com

Basic Information

- Place of Origin: China Guangzhou
- Brand Name: LZR
- Certification: CE
- Model Number: Q9
- Minimum Order Quantity: 1
- Price: confer
- Packaging Details: Standard export packing
- Delivery Time: 5-8days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 Piece/Pieces per Month

Product Specification

- Headpiece: Fractional, Vaginal, Normal Cut
- Language: Multi-language
- Power: 40 Watts
- Aiming Beam: 650nm, ≤5mw
- Operation System: Ultrasonic
- Size: 360x450x1250mm
- Fractional Working Mode: Interval Continuous Working
- Light Guiding System: 7 Joints Arm
- Name: RF Fractional CO2 Laser
- Highlight: **Multi Language Fractional CO2 Laser System , Fractional CO2 Laser System 40W , Continuous Working Fractional CO2 Laser System**

Product Description

Multi Language Fractional CO2 Laser System With 40-Watts Power Output For Interval And Continuous Working

Product Description:

One of the standout features of this machine is its vaginal headpiece, which is specifically designed for use in gynecological procedures. This headpiece is gentle and non-invasive, making it an excellent option for women seeking vaginal rejuvenation treatments.

The RF Fractional CO2 Laser Machine is equipped with an ultrasonic operation system, which ensures that treatments are delivered safely and accurately. It also has a fractional working mode, which allows for interval continuous working, providing patients with the benefits of both ablative and non-ablative therapies.

In addition to its fractional working mode, this machine also includes a continuous laser working mode. This mode delivers a continuous stream of laser energy, providing a deeper level of penetration and allowing for effective treatment of deeper skin layers.

The laser arm of the RF Fractional CO2 Laser Machine originates from South Korea, ensuring that it is of the highest quality and performance. It is also equipped with a 532 nm KTP laser, which provides additional benefits for skin rejuvenation and treatment.

Overall, the RF Fractional CO2 Laser Machine is an excellent option for medical professionals seeking a safe and effective device for skin resurfacing and rejuvenation. Its fractional headpiece, vaginal headpiece, ultrasonic operation system, and dual working modes make it a versatile and reliable choice for a wide range of treatments.

Features:

Product Name: RF Fractional CO2 Laser

Aiming Beam: 650nm, ≤5mw

Laser Power: 40 Watts

Language: Multi-language

Operation System: Ultrasonic

Style: Portable

Uses CO2 Fractional Laser technology

Also known as Co2 Laser Beauty Machine

Helps with Skin Rejuvenation

Effective Skin Rejuvenation Fractional CO2 Laser Machine

Technical Parameters:

| Product Attribute | Value |
|--------------------|---------------------------------------|
| Laser Type | Fractional CO2 Laser |
| Output Mode | Ultra Pulse, Single Pulse, Fractional |
| Net Weight | 45kg |
| Power | 40 Watts |
| Size | 360x450x1250mm |
| Laser Power | 40 Watts |
| Style | Portable |
| Headpiece | Fractional, Vaginal, Normal Cut |
| Laser Working Mode | Continuous |
| Operation System | Ultrasonic |

This is a technical table of attributes for a Fractional CO2 Laser Machine. It is not a Picosecond Laser Machine or ND YAG Laser Machine.

Applications:

This product is equipped with fractional working mode, which means that it can perform interval continuous working. This feature allows the device to deliver precise and accurate treatments, making it ideal for individuals who are looking for a non-invasive skin rejuvenation solution. Additionally, the LZR Q9 RF Fractional CO2 Laser machine comes with a 650nm, ≤5mw aiming beam that makes it easy for the operator to target the treatment area with precision.

The LZR Q9 RF Fractional CO2 Laser machine is suitable for a variety of applications and scenarios. One of the main applications of this product is skin rejuvenation. It is perfect for individuals who are looking to reduce the appearance of fine lines, wrinkles, and other signs of aging. The fractional CO2 laser technology used in this device helps to stimulate collagen production, which in turn helps to improve skin elasticity and firmness.

Another ideal scenario for using the LZR Q9 RF Fractional CO2 Laser machine is for the treatment of acne scars. This product is designed to help minimize the appearance of acne scars and improve overall skin texture. The device uses a combination of ultrasonic and fractional CO2 laser technology to gently resurface the skin and promote the growth of new, healthy skin cells.

The LZR Q9 RF Fractional CO2 Laser machine is also an effective solution for individuals who are looking to improve their overall skin tone and texture. The device uses a combination of ultrasonic and fractional CO2 laser technology to gently resurface the skin and promote the growth of new, healthy skin cells. This helps to reduce the appearance of uneven skin tone and texture, leaving the skin

looking smoother and more radiant.

In conclusion, the LZR Q9 RF Fractional CO2 Laser machine is a versatile and effective DPL laser machine that is perfect for a variety of skin rejuvenation treatments. With its multi-language capability and high-quality performance, this product is a must-have for any beauty salon or clinic that is looking to offer advanced skin rejuvenation treatments to their clients.

Customization:

VAGINAL TIGHTENING NATURAL MEDICAL FRACTIONAL CO2 LASER SYSTEM

Application
Thermal radiation make Mucosa tissue contraction and collagen fibers thereby improving and restructuring vaginal tightening.

1. Shrink vagina: rapid tightening, constriction, lasting firmness.
2. Beautify vagina: dilute pigment, pink labia.
3. Moist vagina: increase secretion, eliminate dryness.
4. Maintenance vagina: deep rejuvenation, prevent aging.
5. To improve sensitivity.
6. Private health, balance PH, improve the internal environment.

PRODUCT FEATURES

- Skin care
1. Remove acne, acne scar, scar and so on;
 2. Dispel wrinkle around the eyes, crow' s-feet, and wrinkle formed by lack of wate;
 3. Effectively reduce the wrinkle on the face, forehead, the joints and striae gravidarum;
 4. Dispel freckle, nevus zygomaticus and other spots formed by hyperchromic pathological changes;
 5. Tighten skin and lift face;
 6. Remove striae gravidarum and other deep scars.
 7. Vaingal tighten and rejuvenation .

REAL PICTURE

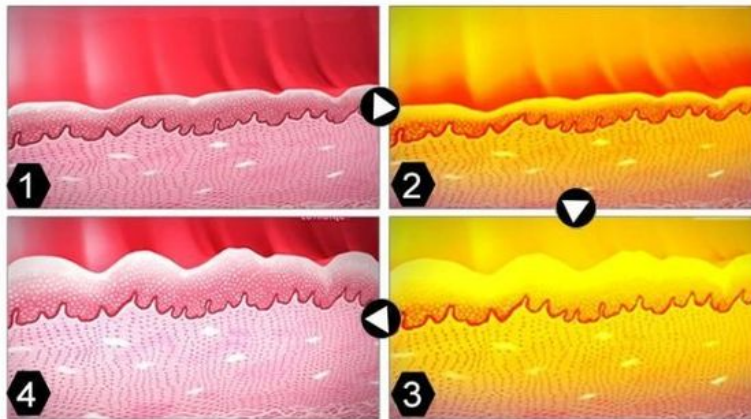

THE PRINCIPLE OF

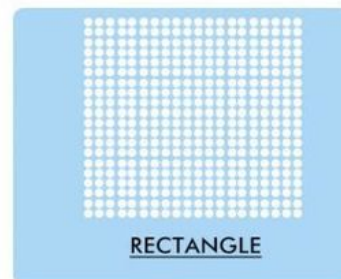

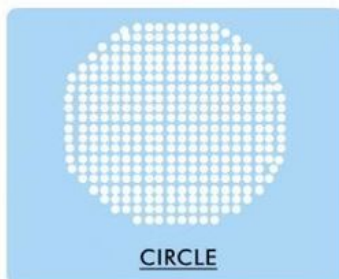

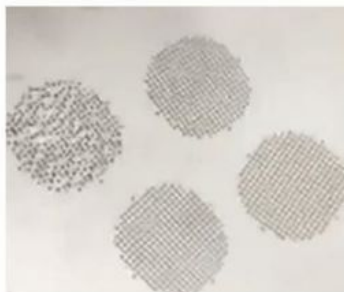

CO2 laser can induce heat shock response (HSR), which can produce heat shock protein (HSP). Heat shock protein 70 can be transformed into growth factor β under laser irradiation. Key role in inducing cells to produce collagen and extracellular matrix.

The private youth laser acts on the vaginal mucosa layer and muscle layer, stimulates collagen fibers, elastic fibers, reticular fibers and organic substrates in the lamina propria and muscle layers, and reshapes the vagina.

Support and Services:

The RF Fractional CO2 Laser product comes with comprehensive technical support and services to ensure smooth operation and optimal performance. Our team of experts provides:

Installation and setup assistance

Training and education on product operation and maintenance

Remote technical support for troubleshooting and problem resolution

On-site repair services, as needed

Regular maintenance and calibration to ensure consistent results

Access to software updates and upgrades

Our goal is to provide our customers with the highest level of satisfaction and support throughout the lifetime of their RF Fractional CO2 Laser product.

Packing and Shipping:
