

Continuous Interval Ultra Pulse RF Fractional CO2 Laser For Fractional Skin Resurfacing

Our Product Introduction

For more products please visit us on hifubeauty-machine.com

Basic Information

- Place of Origin: China Guangzhou
- Brand Name: LZR
- Certification: CE
- Model Number: Q9
- Minimum Order Quantity: 1
- Price: confer
- Packaging Details: Standard export packing
- Delivery Time: 5-8days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 Piece/Pieces per Month

Product Specification

- Name: RF Fractional CO2 Laser
- Aiming Beam: 650nm, ≤5mw
- Operation System: Ultrasonic
- Headpiece: Fractional, Vaginal, Normal Cut
- Output Mode: Ultra Pulse, Single Pulse, Fractional
- Laser Arm Origin: From South Korea
- Power: 40 Watts
- Laser Working Mode: Continuous
- Size: 360x450x1250mm
- Highlight: Continuous Interval RF Fractional CO2 Laser , Ultra Pulse RF Fractional CO2 Laser , RF Fractional CO2 Skin Resurfacing Laser

Product Description

Continuous Interval Ultra Pulse 40W Ultrasonic CO2 Laser For Fractional Skin Resurfacing

Product Description:

The RF Fractional CO2 Laser is a product of South Korea, which is renowned for its advanced technology in the beauty industry. The laser arm origin from South Korea ensures the quality of the product to provide the best treatment options for users. The RF Fractional CO2 Laser operates with an ultrasonic system, which enhances precision and accuracy during treatments. The ultrasonic system ensures that the laser treatment is carried out with minimal damage to the surrounding tissues, and the healing process is quicker than other laser treatments. The laser working mode is continuous, ensuring that the treatment is carried out without any interruptions, providing a smooth and efficient treatment process.

The RF Fractional CO2 Laser is a fractional CO2 laser type that utilizes IPL RF Laser technology to provide effective and safe treatments. The IPL RF Laser technology is a combination of intense pulsed light (IPL) and radiofrequency (RF), which provides a more effective and safe treatment process. This technology makes the RF Fractional CO2 Laser a better option than traditional Bystronic CO2 Laser treatments.

The RF Fractional CO2 Laser is a Co2 Laser Beauty Machine that can provide a range of treatments, including skin rejuvenation, wrinkle reduction, acne scar removal, and vaginal rejuvenation. The beauty machine is designed to provide a range of treatment options, which makes it an ideal option for beauty clinics and spas.

In summary, the RF Fractional CO2 Laser is an advanced beauty machine that provides effective and safe treatment options for various skin-related issues. The laser arm origin from South Korea and the utilization of IPL RF Laser technology ensure that the beauty machine is of the highest quality, providing the best treatment options for users. The ultrasonic system and continuous laser working mode make the treatment process smoother and more efficient, while the three different headpieces provide a range of treatment options. The RF Fractional CO2 Laser is a Co2 Laser Beauty Machine that is a better option than traditional Bystronic CO2 Laser treatments and is an ideal option for beauty clinics and spas.

Features:

Product Name: RF Fractional CO2 Laser

Language: Multi-language

Light Guiding System: 7 Joints Arm

Laser Working Mode: Continuous

Power: 40 Watts

Aiming Beam: 650nm, ≤5mw

Introducing our CO2 Fractional Laser Machine with Fractional RF technology. This machine features a 7 Joints Arm light guiding system, continuous laser working mode, and a power output of 40 Watts. The aiming beam uses 650nm and has a power of ≤5mw. The machine is available in multiple languages, making it accessible to a wider range of users. Invest in our Fractional RF Machine today for effective and efficient laser treatments.

Technical Parameters:

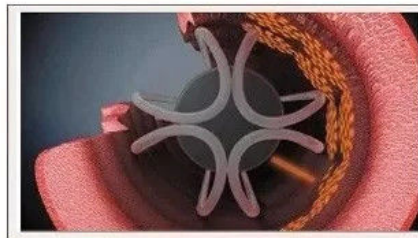

Style	Portable
Laser Arm Origin	South Korea
Light Guiding System	7 Joints Arm
Laser Power	40 Watts
Operation System	Ultrasonic
Laser Type	Fractional CO2 Laser
Headpiece	Fractional, Vaginal, Normal Cut
Net Weight	45kg
Aiming Beam	650nm, ≤5mw
Laser Working Mode	Continuous

This Medical Fractional CO2 Laser Machine also features CO2 Laser Safety Goggles and 532 nm KTP Laser.

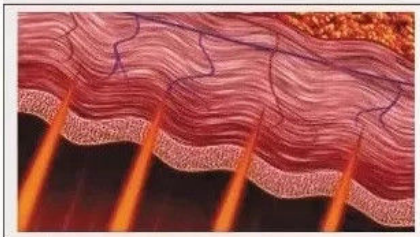

Use an articulate arm probe with automatically 360 rotation technology. producing in 50-70C at a controlled depth insider the vaginal mucosastimulates collagen contraction, restructuring and regeneration; promotes collagen fiber proliferating. remodeling; improves vaginal mucosa microcirculation; Increases cell secretion and dynamic reaction function; Corrects PH value of vaginal insider, Improves the insider environment; Achieve female private parts to significant lasting firming. nourishing and restoring harmonious sexual life.

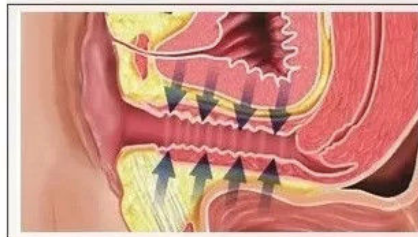

1.Laser irradiation angle can be adjusted

2.Laser irradiation can be rotated 360 degrees

3. The area of the laser is compact edge contraction

4. vaginal walls shrink and tightening

Applications

Tighten vagina –Fast tightening, lasting constriction, tightness to improve 60%;

Clean the vagina – Deep anti-aging, young level to improve 80%;

Moist vagina – Improving secretion, moisture level to improve 80%;

Pink vagina – Vulva rejuvenation, lighten pigment and pinks labia parts, delicate degree to improve 70%

Before treatment:

1. please check your body, especially pregnant
2. Avoid the menstrual period and icatation period

After treatment:

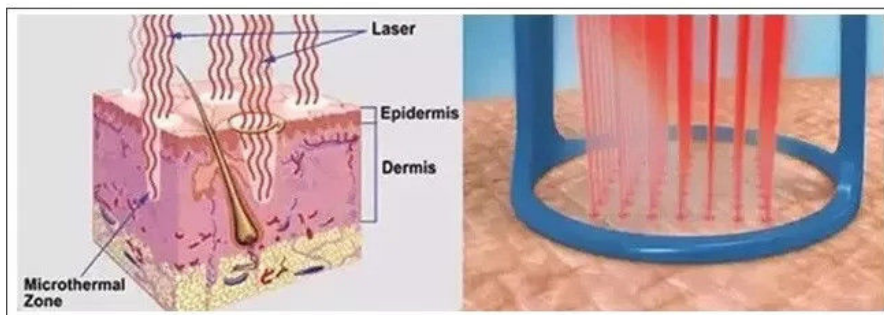

1. within 1 week can not have sex after treatment
2. clean vagina often
3. Need to eat more fruit and some high-fiber foods

PRODUCT FUNCTION

TECHNOLOGY PRINCIPLE

The Co2 Laser emits a laser beam that produces more residual thermal activity than the Erbium Laser. Consequently as the skin heals it produces additional collagen which in turn promotes a further reduction in Fine Lines & Wrinkles, Deep Lines & Wrinkles, Scars and Sun Damage. Once the skin heals, it reveals a softer, smoother and more youthful appearance.

ADVANTAGES OF THE MACHINE

- 

The operation is simple
The system is simple and easy to understand. The operation time is about 20 minutes
- 

More secure
In the process, cross infection is avoided and the safety is higher
- 

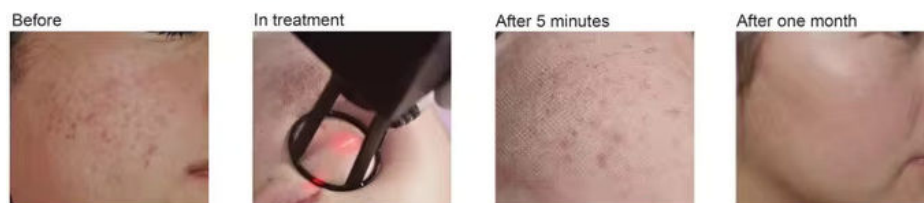

Update system
The max power is 30W
Update interface
More professional
- 

The operation is simple
The system is simple and easy to understand. The operation time is about 20 minutes
- 

The operation is simple
The system is simple and easy to understand. The operation time is about 20 minutes

Take acne treatment as an example

Applications:

The LZR Q9 Fractional CO2 Laser Machine is a versatile device that can be used in a variety of occasions and scenarios. Here are some product application occasions and scenarios that it can be used for:

- Skin Resurfacing:** The LZR Q9 Fractional CO2 Laser Machine can be used for skin resurfacing. It can treat skin problems like acne scars, fine lines, wrinkles, and uneven skin tone. It can also be used to reduce the appearance of sun damage and age spots.
- Scar Removal:** The LZR Q9 Fractional CO2 Laser Machine can be used for scar removal. It can treat scars caused by surgery, injury, acne, or burns. It can also be used to reduce the appearance of stretch marks.
- Skin Tightening:** The LZR Q9 Fractional CO2 Laser Machine can be used for skin tightening. It can stimulate collagen production, which can help to tighten and firm sagging skin.
- Pigmentation Removal:** The LZR Q9 Fractional CO2 Laser Machine can be used for pigmentation removal. It can treat problems like freckles, age spots, and melasma.

5. Hair Removal: The LZR Q9 Fractional CO2 Laser Machine can also be used for hair removal. It can target hair follicles and reduce hair growth.

Conclusion: The LZR Q9 Fractional CO2 Laser Machine is a versatile and efficient product that can be used for a variety of occasions and scenarios. It is a Co2 Laser Beauty Machine and a Medical Fractional CO2 Laser Machine that can help to improve the appearance of skin, remove scars and pigmentation, and tighten skin. Its portability makes it easy to use in various settings.

Customization:

Support and Services:

Our RF Fractional CO2 Laser product comes with comprehensive technical support and services to ensure the optimal performance of the device. This includes:

Installation guidance

Training for users and operators

Regular maintenance and servicing

Remote technical support

On-site repair and replacement services

Our team of experts are available to assist with any technical issues or questions that may arise, and we strive to provide prompt and efficient solutions to minimize any downtime or disruptions.

Packing and Shipping:

The RF Fractional CO2 Laser product packaging includes:

1 RF Fractional CO2 Laser machine

1 power cord

1 footswitch

1 handpiece

1 key

1 user manual

The product will be shipped using a reliable courier service to ensure safe and timely delivery to the customer's specified address.
