

Air Cooled 40 Watts Fractional CO2 Laser Device For Skin Rejuvenation

Our Product Introduction

Basic Information

- Place of Origin: China Guangzhou
- Brand Name: LZR
- Certification: CE
- Model Number: Q9
- Minimum Order Quantity: 1
- Price: confer
- Packaging Details: Standard export packing
- Delivery Time: 5-8days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 Piece/Pieces per Month

Product Specification

- Name: Fractional CO2 Laser Device
- Power: 40 Watts
- Net Weight: 45kg
- Fractional Working Mode: Interval Continuous Working
- Laser Type: Fractional CO2 Laser
- Laser Arm Origin: From South Korea
- Language: Multi-language
- Output Mode: Ultra Pulse, Single Pulse, Fractional
- Headpiece: Fractional, Vaginal, Normal Cut
- Highlight: **Air Cooled Fractional CO2 Laser Device,**
40 Watts Fractional CO2 Laser Device,
Skin Rejuvenation Fractional CO2 Laser Device

Product Description

Air Cooled 40 Watts Fractional CO2 Laser Device For Skin Rejuvenation

Product Description:

The RF Fractional CO2 Laser is a type of Fractional CO2 Laser, which is a highly effective technology for skin resurfacing and rejuvenation. This laser system uses a CO2 laser beam to create microscopic holes in the skin, which triggers the body's natural healing response. This promotes collagen production, which helps to tighten and smooth the skin. The laser can be used in Ultra Pulse mode, Single Pulse mode, and Fractional mode, making it versatile and adaptable to a wide range of patient needs.

The RF Fractional CO2 Laser is a versatile device that can be used to treat a wide range of skin concerns, including fine lines and wrinkles, scarring, pigmentation issues, and uneven skin texture. It is also highly effective for treating acne scars, stretch marks, and other types of scars. In addition, it can be used for skin tightening and rejuvenation, making it an ideal choice for patients who are looking to improve the overall appearance of their skin.

The RF Fractional CO2 Laser has a net weight of 45kg, making it a highly portable and convenient device for aesthetic practitioners. It is easy to use and operate, with a user-friendly interface that allows for easy navigation and customization of treatment parameters. It is a highly reliable and durable device that is designed to provide consistent and effective results for patients.

In addition to the RF Fractional CO2 Laser, our company also offers a range of other aesthetic devices, including IPL RF ND YAG Laser, 532 nm KTP Laser, and DPL Laser Machine. These devices are all highly effective for a range of aesthetic treatments, including hair removal, skin rejuvenation, and tattoo removal. Our team of experts is highly experienced in the field of aesthetic medicine and can provide guidance and support to help practitioners choose the right device for their needs.

Features:

Product Name: RF Fractional CO2 Laser

Size: 360x450x1250mm

Net Weight: 45kg

Power: 40 Watts

Headpiece: Fractional, Vaginal, Normal Cut

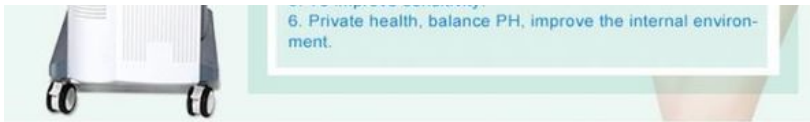

Output Mode: Ultra Pulse, Single Pulse, Fractional

This CO2 Fractional Laser machine is a powerful Elight Rf Laser Machine that comes with multiple headpieces including a Vaginal headpiece. The machine has an output mode of Ultra Pulse, Single Pulse, and Fractional. With its compact size of 360x450x1250mm, it is easy to store and transport. The machine also has a net weight of 45kg, making it sturdy and durable. Get ready to experience the Disco Laser Light effect with this amazing RF Fractional CO2 Laser machine!

Technical Parameters:

Fractional Working Mode	Interval Continuous Working
Headpiece	Fractional, Vaginal, Normal Cut
Laser Type	Fractional CO2 Laser
Size	360x450x1250mm
Laser Working Mode	Continuous
Laser Power	40 Watts
Output Mode	Ultra Pulse, Single Pulse, Fractional
Operation System	Ultrasonic
Power	40 Watts
Aiming Beam	650nm, ≤5mw

PRODUCT FEATURES

Skin care

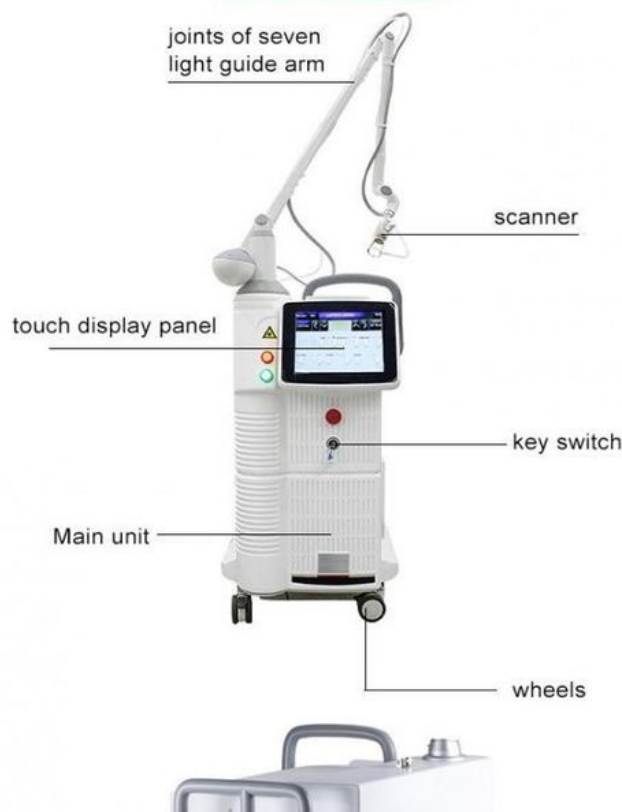

1. Remove acne, acne scar, scar and so on;
2. Dispel wrinkle around the eyes, crow' s-feet, and wrinkle formed by lack of wate;
3. Effectively reduce the wrinkle on the face, forehead, the joints and striae gravidarum;
4. Dispel freckle, nevus zygomaticus and other spots formed by hyperchromic pathological changes;
5. Tighten skin and lift face;
6. Remove striae gravidarum and other deep scars.
7. Vaingal tighten and rejuvenation .

2 IN 1 VAGINAL TIGHTENING DEVICE CO2 LASER & ACNE SCAR REMOVAL MACHINE

THE PRINCIPLE OF

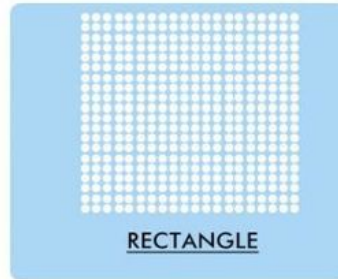

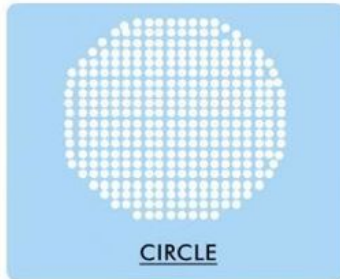

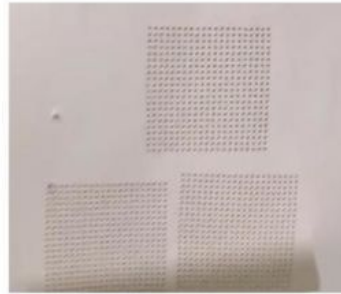

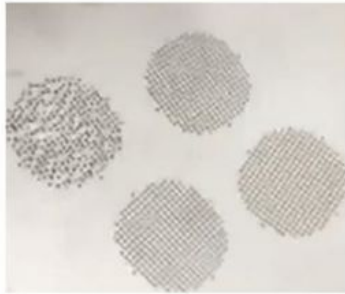

CO2 laser can induce heat shock response (HSR), which can produce heat shock protein (HSP). Heat shock protein 70 can be transformed into growth factor β under laser irradiation. Key role in inducing cells to produce collagen and extracellular matrix.

The private youth laser acts on the vaginal mucosa layer and muscle layer, stimulates collagen fibers, elastic fibers, reticular fibers and organic substrates in the lamina propria and muscle layers, and reshapes the vagina.

Applications:

Skin Rejuvenation: The LZR Q9 is an excellent choice for skin rejuvenation treatments, thanks to its powerful fractional CO2 laser technology. This technology can help to improve skin texture, reduce fine lines and wrinkles, and even out skin tone. The machine's fractional working mode allows it to deliver precise treatments with minimal downtime.

Acne Treatment: The LZR Q9 can also be used to treat acne and acne scars. The fractional laser technology can help to reduce inflammation and kill the bacteria that cause acne, while also stimulating collagen production and improving skin texture.

Scar and Stretch Mark Reduction: The LZR Q9 is also effective for reducing the appearance of scars and stretch marks. The fractional laser technology can help to break down scar tissue and stimulate collagen production, resulting in smoother, more even skin.

Vaginal Rejuvenation: The LZR Q9 includes a vaginal headpiece that can be used for vaginal rejuvenation treatments. This technology can help to improve vaginal tightness and elasticity, reduce dryness and discomfort, and even improve function.

Multi-Language Support: The LZR Q9 supports multiple languages, making it easy to use in a variety of international settings. Whether you're a dermatologist, a plastic surgeon, or a spa owner, the LZR Q9 RF Fractional CO2 Laser Machine is an excellent choice for a wide range of laser treatment applications. With its advanced technology, high-quality components, and versatile headpieces, this machine can help you achieve excellent results for your patients or clients. So why wait? Order your LZR Q9 machine today and experience the power of advanced laser technology for yourself!
