Basic Information

- Place of Origin: China Guangzhou
- Brand Name: LZR
- Certification: CE
- Model Number: Q9
- Minimum Order Quantity: 1
- Price: confer
- Packaging Details: Standard export packing
- Delivery Time: 5-8days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 Piece/Pieces per Month

Product Specification

- Name: CO2 Laser Resurfacing Machine
- Fractional Working Mode: Interval Continuous Working
- Operation System: Ultrasonic
- Size: 360x450x1250mm
- Power: 40 Watts
- Headpiece: Fractional, Vaginal, Normal Cut
- Light Guiding System: 7 Joints Arm
- Net Weight: 45kg
- Style: Portable
- Highlight: **Ultrasonic CO2 Laser Resurfacing Machine, Fractional CO2 Laser For Surgical Scars**

Product Description

40W Ultrasonic Surgical CO2 Fractional Laser For Skin Resurfacing Scar Removal

Product Description:

The Fractional CO2 Laser Beauty Machine is equipped with a Fractional headpiece, which is designed to provide clients with a highly controlled and precise treatment. The headpiece can be used in three different modes: Fractional, Vaginal, and Normal Cut. This ensures that the machine can be used to treat a wide range of skin conditions, including fine lines, wrinkles, acne scars, and uneven skin tone. Another great feature of the Fractional CO2 Laser Beauty Machine is its multi-language support. This means that the machine can be used in a variety of different languages, making it accessible to clients from all over the world.

The Fractional CO2 Laser Beauty Machine is operated using an Ultrasonic system, which ensures that the machine is both safe and effective. This system is designed to deliver precise and controlled treatments, ensuring that clients receive the best possible results. The Fractional CO2 Laser Beauty Machine is equipped with a Fractional working mode, which allows for interval continuous working. This ensures that the machine is capable of delivering consistent and effective treatments, without the need for downtime or breaks.

Overall, the Fractional CO2 Laser Beauty Machine is an excellent choice for any beauty clinic or spa. Its versatile and efficient design, combined with its multi-language support and Ultrasonic operation system, make it one of the best options on the market. Whether you are looking to treat fine lines and wrinkles or acne scars and uneven skin tone, the Fractional CO2 Laser Beauty Machine is sure to provide you with the results you desire.

Features:

Product Name: RF Fractional CO2 Laser

Laser Type: Fractional CO2 Laser

Aiming Beam: 650nm, ≤5mw

Other related keywords: Co2 Laser Beauty Machine, IPL RF ND YAG Laser, Medical Fractional CO2 Laser Machine

Technical Parameters:

Net Weight	45kg
Operation System	Ultrasonic
Aiming Beam	650nm, ≤5mw
Laser Arm Origin	From South Korea
Language	Multi-language
Laser Type	CO2 Fractional Laser
Light Guiding System	7 Joints Arm
Size	360x450x1250mm
Headpiece	Fractional, Vaginal, Normal Cut
Laser Working Mode	Continuous

Applications:

As a Medical Fractional CO2 Laser Machine, it is also highly effective at treating a wide range of skin conditions, including acne scars, pigmentation, and uneven skin texture. The laser works by creating tiny microscopic wounds in the skin, which then stimulate the body's natural healing process. This leads to smoother, clearer, and more youthful-looking skin.

The LZR Q9 can also be used as an ND YAG Laser Machine for tattoo removal and pigmentation removal. The laser penetrates deep into the skin, breaking up the ink or pigment and allowing the body to naturally eliminate it over time. This makes it an excellent choice for those looking to remove unwanted tattoos or dark spots on the skin.

Thanks to its Interval Continuous Working Fractional mode and 40 Watts of power, the LZR Q9 is highly efficient and effective. It can be used in a variety of settings, including medical spas, dermatology clinics, and aesthetic centers. Its compact size of 360x450x1250mm also makes it easy to use and store, even in smaller treatment rooms.

Overall, the LZR Q9 Fractional CO2 Laser is a powerful, versatile, and effective laser machine that can help improve a wide range of skin conditions and concerns. Whether you are looking for skin rejuvenation, wrinkle reduction, or tattoo removal, the LZR Q9 is an excellent choice. Made in China Guangzhou and using Fractional CO2 Laser technology, it is a high-quality and reliable machine that is sure to deliver outstanding results.

MEDICAL FRACTIONAL CO2 LASER SYSTEM

THE PRINCIPLE OF

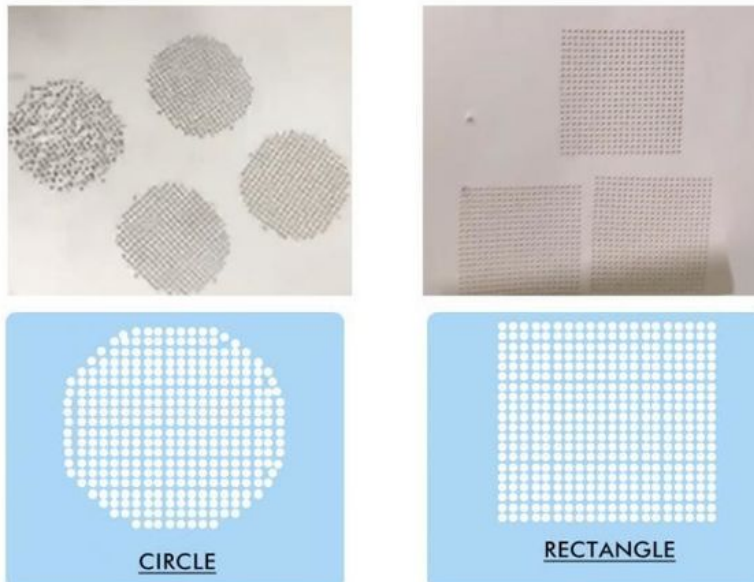

CO2 laser can induce heat shock response (HSR). which can produce

heat shock protein (HSP). Heat shock protein 70 can be transformed into growth factor β under laser irradiation. Key role in inducing cells to produce collagen and extracellular matrix.

The private youth laser acts on the vaginal mucosa layer and muscle layer, stimulates collagen fibers, elastic fibers, reticular fibers and organic substrates in the lamina propria and muscle layers, and reshapes the vagina.
