## Product Description

### Simultaneous And Independent Focused Ultrasound Beauty Device

#### Product Description:

With its Simultaneous / Independent Control working mode, the HIFU Beauty Machine is highly versatile and can be customized to your specific needs. Its Length specification ranges from 5.0 - 25mm (1.0mm / Step), allowing for targeted treatment of specific areas of your face and body.

The HIFU Beauty Machine is a must-have for anyone seeking an effective and non-invasive solution for skin tightening and wrinkle reduction. Its Energy Output can be adjusted from 0.1J-2.5J (0.1J/step), ensuring that you get the perfect level of treatment for your individual skin concerns.

Measuring 64 X 81 X 131 Cm, this HIFU Skin Tightening Device is both portable and easy to use, allowing you to enjoy the benefits of HIFU treatment in the comfort of your own home. Whether you're looking to smooth out fine lines and wrinkles or tighten loose skin, the HIFU Anti-wrinkle Device is the perfect choice for you.

### Applications:

The Hifu Facial Machine is a versatile device that can be used in a variety of settings, making it an ideal choice for both personal and professional use. It is a portable device, which means it can be easily transported and used on-the-go. The device can be used to target specific areas of the face, such as the forehead, cheeks, chin, and neck.

The Focused Ultrasound Beauty Device uses energy output ranging from 0.1J-2.5J (0.1J/step) to penetrate deep into the skin, stimulating collagen production and tightening the skin. This results in a more youthful appearance, with fewer wrinkles and fine lines. The device is suitable for all skin types, making it a versatile option for individuals with a range of skin concerns.

The HIFU Beauty Machine is an ideal choice for individuals looking to improve the appearance of their skin without undergoing invasive procedures. It is also a popular choice for estheticians and beauty professionals who want to offer their clients a safe and effective alternative to traditional facelifts.

Some common application occasions and scenarios for the HIFU Beauty Machine include:

Weddings and special events: Individuals can use the HIFU Beauty Machine to ensure they look their best for special occasions, such as weddings, proms, and other events.

Beauty salons and spas: Estheticians and beauty professionals can use the HIFU Beauty Machine to offer their clients a safe and effective alternative to traditional facelifts.

Personal use: Individuals can use the HIFU Beauty Machine at home to improve the appearance of their skin and achieve a more youthful appearance.

Medical clinics: Medical professionals can use the HIFU Beauty Machine to provide their patients with a non-invasive alternative to traditional facelifts.

The HIFU Beauty Machine has a minimum order quantity of 1 set, with a discussible price. It comes with regular packaging and has a delivery time of 5-8 working days. Payment terms include L/C and T/T, with a supply ability of 10000 pieces/month. The device has an input voltage of AC100V-240V and a spacing of 1.0-10mm(0.5mm/step).
