Product Description

Product Description:

The HIFU Beauty Machine is designed to improve the appearance of the skin by targeting the deep layers of tissue. With a scope of 5.0mm-25mm, it can penetrate the skin at different depths to stimulate collagen production, which helps to lift and tighten sagging skin. The spacing of the device can be adjusted from 1.0-10mm (0.5mm/step), allowing for precise targeting of specific areas of the face and body.

This Hydrafacial Beauty Machine comes with a packing size of 64 X 81 X 131 Cm and is manufactured by a reliable supplier. The device is easy to use and can be operated by anyone. Simply apply a conductive gel to the treatment area, select the desired depth and spacing, and move the device in circular motions over the skin.

The HIFU Beauty Machine is a cost-effective alternative to expensive salon treatments. It can be used to target a range of skin concerns, including wrinkles, fine lines, and sagging skin. With regular use, the device can improve the overall quality and texture of the skin, leaving it looking smoother, firmer, and more youthful.

Overall, the HIFU Beauty Machine is an excellent investment for anyone looking to improve the appearance of their skin in the comfort of their own home. It is a safe and effective way to achieve a more youthful, radiant complexion without the need for invasive procedures or costly salon treatments.

Features:

Product Name: HIFU Beauty Machine

Input Voltage: AC100V-240V

Lamp Longevity: 300,000 Shots (IPL)

Working Mode: Simultaneous / Independent Control

Size: Portable

Energy Type: HIFU (High Intensity Focused Ultrasound)

This Home Beauty Machine is a HIFU Skin Regeneration Device, also known as the Hifu Beauty Machine. It allows for simultaneous or independent control and has a lamp longevity of 300,000 shots (IPL). The portable size makes it easy to take wherever you go. The energy type used is HIFU (High Intensity Focused Ultrasound), making it a powerful tool for your beauty needs.

Focused ultrasound
technology enables
precise positioning and
operation without
damaging surrounding
tissues
- 04** no recovery period
Show off beautifully after use
Does not affect work life at all
- 05** Lift and tighten
Show off beautifully after use
Does not affect work life at all
- 06** process comfort
- 07** Long lasting effect
Long-lasting for more than 3
years with one use
- 08** easy to use
Simple and convenient
operation can be done
easily at home.

Applications:

The HIFU Beauty Machine is a portable device that has a range of 5.0mm-25mm. It has an energy output of 0.1J-2.5J (0.1J/step) and a spacing of 1.0-10mm (0.5mm/step). The machine has two working modes: Simultaneous and Independent Control.

The HIFU Beauty Machine is suitable for a variety of occasions and scenarios. It can be used for facial lifting and tightening, wrinkle reduction, and skin rejuvenation. The machine can be used on the face, neck, and other parts of the body. It is ideal for use in beauty salons, spas, and clinics where clients are looking for non-invasive, effective treatments.

The HIFU Beauty Machine is also ideal for home use. Its portable size makes it easy to use and store at home. Clients can use the machine to maintain their skin and address common skin concerns such as wrinkles and sagging skin. The HIFU Beauty Machine is also suitable for people who are looking for an alternative to invasive cosmetic procedures.

In conclusion, the HIFU Beauty Machine is a versatile and effective device that can be used for a range of applications. Its portable size and non-invasive nature make it suitable for both professional and home use. Whether used in a beauty salon or at home, the HIFU Beauty Machine is an excellent choice for anyone looking for a safe and effective way to maintain their skin and address common skin concerns.

Customization:

Our minimum order quantity is 1 set and the price is discussible. The machine comes with regular packaging and has a delivery time of 5-8 working days. Payment terms accepted include L/C and T/T. Our supply ability is 10,000 pieces per month.

The scope of the machine is 5.0mm-25mm and it has an energy output of 0.1J-2.5J (0.1J/step). The spacing can be adjusted from 1.0-10mm (0.5mm/step). The energy type is HIFU (High Intensity Focused Ultrasound).

As the manufacturer, we offer product customization services to ensure that our machine meets your unique needs. Contact us to discuss your requirements and we'll work with you to create a customized solution.
