Basic Information

- Place of Origin: Guangzhou, China
- Brand Name: other
- Certification: CE
- Model Number: hifu-3
- Minimum Order Quantity: 1 Sets
- Price: Discussible
- Packaging Details: Regular Packaging
- Delivery Time: 5-8 working Days
- Payment Terms: L/C, T/T,
- Supply Ability: 10000 pieces/month

Product Specification

- Energy Type: HIFU (High Intensity Focused Ultrasound)
- Specification: Packing , 64 X 81 X 131 Cm
- Pack Size: 60*44*46cm
- Material: ABS
- Spacing: 1.0-10mm(0.5mm/step)
- Body Type: Vertical
- Input Voltage: AC100V-240V
- Lamp Longevity: 300,000 Shots (IPL)
- Highlight: **25mm HIFU beauty machine,**
1.0mm step HIFU device,
AC100V-240V HIFU machine

Product Description:

The HIFU Beauty Machine is a cutting-edge beauty device designed to provide targeted focused ultrasound beauty treatments. Made from durable ABS material, this machine utilizes the latest HIFU (High Intensity Focused Ultrasound) energy technology to deliver effective non-invasive ultrasound beauty therapy.

With its vertical body type and portable size, the HIFU Beauty Machine is versatile and convenient for use in various beauty settings.

Whether in a professional salon or for personal use at home, this machine offers flexibility and ease of operation.

One of the key features of the HIFU Beauty Machine is its adjustable spacing, ranging from 1.0 to 10mm with a 0.5mm step increment.

This precise spacing control allows for customizable treatments tailored to individual skin needs and treatment areas.

By harnessing the power of high intensity focused ultrasound energy, this beauty machine targets specific areas of the skin to stimulate collagen production and promote skin tightening and rejuvenation. The targeted focused ultrasound energy penetrates deep into the skin layers, triggering a natural healing response that leads to firmer, smoother skin over time.

Unlike invasive beauty procedures that may require downtime and recovery, the HIFU Beauty Machine offers a non-invasive alternative that achieves visible results with minimal discomfort. Patients can enjoy the benefits of ultrasound beauty therapy without the risks associated with surgical interventions.

Whether used for facial treatments, body contouring, or skin tightening, the HIFU Beauty Machine is a versatile tool that can address a wide range of aesthetic concerns. Its innovative technology and user-friendly design make it a valuable addition to any beauty treatment regimen.

Experience the transformative power of targeted focused ultrasound beauty treatments with the HIFU Beauty Machine. Discover a non-invasive solution for achieving radiant, youthful skin without the need for surgery or downtime.

Features:

Product Name: HIFU Beauty Machine

Supplier Info: Manufacturer

Input Voltage: AC100V-240V

Specification: Packing , 64 X 81 X 131 Cm

Energy Output: 0.1J-2.5J (0.1J/step)

Scope: 5.0mm-25mm

Technical Parameters:

Specification	Packing , 64 X 81 X 131 Cm
Suitable Skin Types	All
Material	ABS
Spacing	1.0-10mm(0.5mm/step)
Lamp Longevity	300,000 Shots (IPL)
Supplier Info	Manufacturer
Body Type	Vertical
Length	5.0 - 25mm (1.0mm/Step)
Input Voltage	AC100V-240V
Energy Output	0.1J-2.5J (0.1J/step)

Applications:

The HIFU Beauty Machine, model number hifu-3, is a cutting-edge product in the beauty industry that utilizes High Intensity Focused Ultrasound (HIFU) technology. Manufactured by other in Guangzhou, China, this device is certified with CE, ensuring its quality and safety standards.

With a minimum order quantity of 1 set and a discussible price, this HIFU machine comes with regular packaging and has a delivery time of 5-8 working days. Payment terms accepted include L/C and T/T, making it convenient for buyers. The supply ability of this device is impressive, with 10000 pieces per month.

Designed as a portable system, the HIFU Beauty Machine offers a range of product application occasions and scenarios. It is a versatile device suitable for various skin types, making it suitable for aesthetic centers, beauty spas, and dermatology clinics.

The energy type utilized by this device is Focused Ultrasound, making it a powerful tool for facial contouring and skin tightening. Its working mode allows for simultaneous or independent control, providing flexibility for different treatment protocols.

The HIFU Beauty Machine is ideal for targeted facial treatments, offering HIFU face lifting and tightening capabilities. Its adjustable spacing of 1.0-10mm with 0.5mm steps allows for precise and customized treatments, catering to the unique needs of each client.

Whether used for anti-aging treatments, wrinkle reduction, or overall skin rejuvenation, this Targeted Focused Ultrasound Beauty Device is a valuable addition to any beauty professional's toolkit. Its compact size and advanced technology make it a must-have for beauty professionals seeking effective and non-invasive treatment options.
