- Highlight: **HIFU beauty machine with 25mm length, high intensity focused ultrasound beauty device, HIFU treatment machine with warranty**

Product Description

Product Description:

The Focused Ultrasound Facial Contouring System is a cutting-edge beauty machine designed to provide high-intensity focused ultrasound (HIFU) treatments for facial contouring and skin rejuvenation. Made with durable ABS material, this advanced beauty device offers both simultaneous and independent control modes for customizable treatment options.

With a specification of 64 X 81 X 131 cm, the Focused Ultrasound Facial Contouring System is a powerful tool for intense ultrasonic beauty treatments. Its versatile scope ranges from 5.0mm to 25mm, allowing for precise targeting of different skin layers for optimal results.

The pack size of 60*44*46cm makes this HIFU Beauty Machine portable and easy to transport, perfect for use in professional salons or clinics. Whether you are looking to tighten and lift sagging skin, reduce wrinkles, or improve overall skin texture, this beauty device can help you achieve your desired results.
