

HIFU Beauty Machine 0.1J-2.5J Energy Output for Skin Tightening

Our Product Introduction

Basic Information

- Place of Origin: Guangzhou, China
- Brand Name: other
- Certification: CE
- Model Number: hifu-3
- Minimum Order Quantity: 1 Sets
- Price: Discussible
- Packaging Details: Regular Packaging
- Delivery Time: 5-8 working Days
- Payment Terms: L/C, T/T,
- Supply Ability: 10000 pieces/month

Product Specification

- Working Mode: Simultaneous / Independent Control
- Energy Output: 0.1J-2.5J (0.1J/step)
- Pack Size: 60*44*46cm
- Energy Type: HIFU (High Intensity Focused Ultrasound)
- Supplier Info: Manufactueruer
- Scope: 5.0mm-25mm
- Length: 5.0 - 25mm (1.0mm / Step)
- Spacing: 1.0-10mm(0.5mm/step)
- Highlight:
 - HIFU skin rejuvenation machine for wrinkle reduction**
 - high intensity focused ultrasound beauty machine**
 - , HIFU machine with adjustable energy output**

Product Description:

The HIFU Beauty Machine is a cutting-edge device designed for advanced facial rejuvenation and skin tightening procedures. This non-invasive HIFU Face Lifting and Tightening Equipment utilizes High Intensity Focused Ultrasound (HIFU) technology to deliver targeted energy to multiple depths within the skin, ranging from 5.0mm to 25mm.

With a compact pack size of 60*44*46cm, this HIFU Skin Tightening Device is convenient for both professional salon use and personal at-home treatments. The device is constructed with high-quality ABS material, ensuring durability and reliability in its performance.

The HIFU Beauty Machine offers two working modes: Simultaneous and Independent Control. This flexibility allows practitioners to customize treatments based on individual client needs and target specific areas with precision.

Utilizing the power of focused ultrasound energy, this Targeted Focused Ultrasound Beauty Device stimulates collagen production and tissue rejuvenation at varying depths of the skin. The HIFU technology bypasses the surface of the skin, delivering energy directly to the underlying tissue layers to promote natural skin tightening and lifting effects.

Whether used for overall facial rejuvenation or targeted treatment of specific areas such as the forehead, cheeks, jawline, or neck, the HIFU Beauty Machine offers versatile solutions for a wide range of aesthetic concerns. Patients can experience noticeable improvements in skin firmness, elasticity, and overall texture with consistent use of this innovative device.

In addition to its skin tightening and lifting benefits, the HIFU Beauty Machine also promotes long-lasting results with minimal downtime.

Unlike invasive surgical procedures, this non-invasive device allows for comfortable treatments without the need for anesthesia or incisions.

Overall, the HIFU Beauty Machine is a state-of-the-art solution for individuals seeking safe, effective, and convenient skin rejuvenation treatments. With its advanced HIFU technology, customizable working modes, and durable construction, this device is a valuable addition to any professional beauty clinic or skincare practice.

Features:

Product Name: HIFU Beauty Machine

Material: ABS

Energy Output: 0.1J-2.5J (0.1J/step)

Length: 5.0 - 25mm (1.0mm/Step)

Body Type: Vertical

Suitable Skin Types: All

Technical Parameters:

Length	5.0 - 25mm (1.0mm/Step)
Input Voltage	AC100V-240V
Material	ABS
Working Mode	Simultaneous / Independent Control
Specification	Packing, 64 X 81 X 131 Cm
Suitable Skin Types	All
Supplier Info	Manufacturer
Size	Portable
Spacing	1.0-10mm (0.5mm/step)
Energy Type	HIFU (High Intensity Focused Ultrasound)

Applications:

The HIFU Beauty Machine by other, model hifu-3, is a cutting-edge Ultrasonic Beauty System for Face Lifting that offers a wide range of application occasions and scenarios. Manufactured in Guangzhou, China, this CE-certified beauty device is designed to provide effective and non-invasive facial treatments.

With a minimum order quantity of 1 set and a discussible price, this HIFU Beauty Machine comes with regular packaging and a delivery time of 5-8 working days. Payment terms accepted include L/C and T/T, making it convenient for procurement.

Designed for professional use, this Ultrasonic Beauty System for Face Lifting is suitable for a variety of settings. Whether used in beauty salons, spas, dermatology clinics, or aesthetic centers, this device offers exceptional results in skin tightening and rejuvenation.

The HIFU Beauty Machine is equipped with advanced features such as an energy output range of 0.1J-2.5J with 0.1J/step increments, allowing for precise and customized treatments. The ABS material used in its construction ensures durability and reliability, making it a long-lasting investment for beauty professionals.

With a pack size of 60*44*46cm, this device is compact and easy to transport, making it suitable for mobile beauty services as well. The high supply ability of 10,000 pieces per month ensures that the HIFU Beauty Machine is readily available for purchase.

Whether targeting fine lines, wrinkles, or sagging skin, this Ultrasonic Beauty System for Face Lifting is versatile and effective in addressing a wide range of facial concerns. Its lamp longevity of 300,000 shots (IPL) guarantees long-term use without the need for frequent replacements.
